Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

EARLY FLOWERING AND FORCING BULBS AND PLANTS

FOR CHRISTMAS AND EASTER DECORATION.

ALLIUM.—*Neapolitanum*, White. One of the earliest of Spring Flowers, and forces rapidly in a cool house, per 100, \$1.00; per doz., 20c.

For other varieties see page 8.

ARUM Calla or Richardia.—*Æthiopica*, pure White. A lovely flower for use at Easter Church Festivals. Dry roots per doz., \$2.50; each, 25c.

Mrs. Roosevelt, handsome soft lemon coloured flowers, dark green foliage, marked with silver blotches, per doz., \$3.50; each, 35c.

For other varieties see page 8.

CHRISTMAS ROSE.—Can be forced into flower very early.

Helleborus Maximus—giant variety, per doz., \$6.00; each, 60c.

Helleborus Niger, grand clumps for forcing at Christmas, per doz., \$4.50; each, 50c.

For other varieties see page 13.

CROCUS.—For pot culture, in 12 distinct named varieties per 100, \$1.25

See also pages 11 and 12 for other varieties and prices.

DIELYTRA SPECTABILIS.—*The Bleeding Heart*. We offer strong clumps in a dormant state, per doz., \$1.50; each, 20c.

For other variety see page 14.

EUCHARIS AMAZONICA.—This plant requires a moist heat in which to grow it well. Extra strong roots for forcing per doz., \$6.00; each, 60c.

FREESIA.—These fragrant blooms should 'e grown by all lovers of beautiful flowers.

Refracta Alba, pure white, per 100, \$2.00; per doz., 30c.

Leichtlini Major, yellow and white, per 100, \$1.75; per doz., 25c.

Freesia Purity, mammoth, per 100, \$4.00; per doz., 65c.

Freesia Purity, first size, per 100, \$3.50; per doz., 50c.

For illustration and other varieties see page 15.

HYACINTHS—Early White Roman are exceedingly popular on account of their earliness, the succession that can be kept up by judicious plantings, the abundance of sweetly perfumed flowers, and their value for decoration in pots, baskets, or vases at seasons when white flowers are scarce. To have them in flower by Christmas they should be started early in September.

Carters Mammoth Bulbs, specially selected, per 1,000, \$65.00; per 100, \$7.00; per doz., \$1.00

Fine Selected First Size Bulbs, per 1,000, \$55.00; per 100, \$6.00; per doz., 85c.

Ordinary Size, per 1,000, \$50.00; per 100, \$5.00; per doz., 75c.

For a succession of bloom the following varieties are recommended to come in two weeks later than the White Roman Hyacinths:—

Carters Early Blue Roman Hyacinths, per 100, \$3.00; per doz., 40c.

Carters Early White Italian Hyacinths, per 100, \$4.00; per doz., 60c.

For illustration and other varieties see page 19.

LILIUMS.—*Carters Easter Lily (Harrisii)*. This variety may be forced into bloom by Christmas if planted in August.

Magnificent Bulbs, 9-11 size, specially selected for Exhibition per doz., \$5.00; each, 50c.

Fine Bulbs, 7-9 per doz., \$2.50; each, 25c.

Longiflorum Gigantum, the gigantic Japanese form, splendid for forcing the year round, per doz., \$2.00; each, 20c.

Longiflorum, Bermuda form, fine white. tube-shaped, 9-11, per doz., \$4.50; each, 45c.

Complete list of Lilies see pages 28 to 31.

LILY OF THE VALLEY.—*Carters Selected Crowns*, for forcing (in bundles of 25),

per 1,000, \$20.00; per 100, \$2.50; per 25, 75c.

Good Crowns, per 1,000, \$18.00; per 100, \$2.00; per 25, 60c.

Retarded or cold storage stock.—We have made arrangements by which a continuous supply may be assured, per 1,000, \$22.50; per 100, \$2.75; per bundle of 25, 75c.

For illustration see page 32.

NARCISSUS AND DAFFODILS.

Double Roman, yellow, very early, Polyanthus varieties per 100, \$2.00; per doz., 25c.

Paper White, fine white, Polyanthus varieties, per 100, \$2.00; per doz., 30c.

Carters Early Snowflake, pure white, very early, Polyanthus variety per 100, \$2.00; per doz., 25c.

Van Sion, the true Double Trumpet Daffodil, per 100, \$3.50; per doz., 50c.

Golden Spur, full golden yellow, very early, splendid for forcing, good bulbs, per 100, \$2.50; per doz., 35c. Extra strong per 100, \$4.00; per doz., 60c.

King Alfred, see pages 37-38.

Sir Watkin, golden cup, primrose petals, Giant Welsh Daffodil, enormous bulbs, per 100, \$2.75; per doz., 40c.

Early Flowering Poets, pure white with crimson crown, per 100, \$1.25; per doz., 25c.

For illustrations and other varieties see pages 41 to 45.

SNOWDROPS.—*Carters Giant Single*. These are pretty for pot culture, but will not force well, per 1,000, \$6.00; per 100, \$1.00; per doz., 20c.

For other varieties see page 55.

SPIRÆA.—An elegant flower for house and table decoration.

Gladstone, snow white... per doz., \$1.50; each, 20c.

Japanica, extra strong... per doz., \$1.00; each, 15c.

Floribunda, improved form... per doz., \$1.50; each, 15c.

Carters Snowdrift, the earliest, most profuse flowering, pure white Spiræa, per doz., \$2.50; each, 25c.

Queen Alexandra and Peach Blossom, charming pink varieties per doz., \$2.00; each, 20c.

For illustration and other varieties see page 56.

TULIPS.—*Single Duc Van Thol*. This class is best adapted for earliest forcing, being very early, brilliant in colour, and dwarf in habit. Colours, scarlet, white, rose, yellow, red and yellow, and cochineal.

For illustration and prices of the forcing varieties see page 58.

CARTERS "EMPRESS POPPY" ANEMONES.

CARTERS "EMPRESS POPPY" ANEMONES.

SUITABLE FOR VASE
DECORATION, LAST-
ING WHEN CUT.

An easily grown type that should be found in every garden. They come into bloom the end of May and throughout June. Colours various and brilliant. The flowers are of immense size (often measuring four inches in diameter) and great substance, invaluable for cutting and decorative purposes, the moderate price at which they are offered admits of their extensive use for decoration of the Herbaceous or shrubby border, where a constant and brilliant display can be produced.

Price of Dry Roots,
per 1,000 \$20.00; per
100 \$2.50; per doz. 35c.

"ST. BRIGID" ANEMONE.

THE TRUE IRISH STRAIN.

This beautiful strain, raised originally in Ireland and first brought into prominence by our House, deserves more than passing notice. The flowers are semi-double, most varied and beautifully coloured, and if cut before fully out are most useful for decorative purposes. Strong dry Roots. Price per 1,000, \$20.00; per 100, \$2.25; per doz. 35c.

CARTERS ANEMONE, "KING OF THE SCARLETS."

THE TRUE ENGLISH VARIETY.

Intense brilliant scarlet, very double. A fitting companion to our well-known Single "Empress Poppy" Anemone. The flowers are of great size, intensely double, and remarkably brilliant in colour, much superior in every way to the Dutch variety.

Price, per 1,000, \$22.00; per 100 \$2.50; per doz. 40c.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

ANEMONE, THE BRIDE.

Chrysanthemum Flowered , Rose de Nice , soft rose		2.50	.35

ANEMONE FULGENS.

We offer the true early single form, fine English-grown roots, of the well-known Scarlet Pau Anemone. A very brilliant scarlet crimson flower, rising from 6 to 9 inches above the rich green palmate foliage; splendid for clumps in border, in a bed by itself, vase decoration, and also for naturalization in sunny hedgerows or among the grass.

Price, per 1,000, \$20.00; per, 100, \$2.25; per doz., 35c. For other Anemones, see page 6.

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

ACONITE (*Eranthis Hyemalis*).

Early spring flowering plant, flowers golden yellow. The dry roots should be planted as early as possible in autumn. Plant in clumps about 3 inches deep if a mass of colour is desired. It makes a very pretty edging when planted with Snowdrops, whilst if *Chionodoxa* or *Scilla Siberica* is included in the planting, the variation of blue, white, and yellow is pleasing.

Extra large roots, price per 1,000 \$8.00; per 100 \$1.00; per doz. 20c.

AGAPANTHUS.

These herbaceous plants, with tuberous roots, are sufficiently hardy to succeed out of doors from May to October. They should be stored in a cool house or pit during winter. The flowers are produced on a long stem. Height 18 inches.

		Per doz.	Each.
Agapanthus umbellatus , blue		\$2.00	\$.20
“ “ Albus , white		2.00	.20

ALLIUM.

Hardy plants to bloom in spring and summer, suitable for borders and like situations. The *A. LUTEUM* yellow and *A. NEAPOLITANUM* white are very popular. Height 12 inches.

Per 100, \$1.00; per doz., 20c.

ALLIUM OSTROWSKYANUM, pretty pale pink, effective for borders. Height 8 inches.

Per 100, \$1.00; per doz., 20c.

AMARYLLIS.

Amaryllis are a showy tribe of bulbous plants, and exceedingly effective for conservatory decoration. Pot up the dry bulbs when received in good loamy soil, and expect them to bloom the following spring or summer. When potting, use a compost of turfy loam and leaf-mould, coarse sand, and well-rotted manure.

	Per doz.	Each		Per doz.	Each.
Amaryllis Bella Donna (Bella Donna Lily), soft pink	\$1.75	\$.20	Amaryllis Purpurea (Vallota), splendid scarlet	\$3.00	\$.30
Amaryllis Formosissima (Jacobae Lily), crimson	1.50	.15	Amaryllis Mixed Seedlings , from choice sorts	6.00	.60

ANTHERICUM.

A. LILIAGO (St. Bernard's Lily) is a specie from South Europe, bearing pure white flowers early. Height about 2 feet. *A. LILIASTRUM* (St. Bruno's Lily) is another graceful specie with broad grassy leaves, and white, sweet-scented flowers. Very showy in mixed border.

Either variety, per 100 \$7.50; per doz. \$1.25; each 15c.

ARUM (*Calla* or *Richardia*).

The *ARUM LILY* is a magnificent flower for decorative purposes, and can be easily grown in pots. They require a moderate heat, lots of water and an occasional feeding of liquid manure.

	Per doz.	Each.		Per doz.	Each.
Arum Mrs. Roosevelt (see photograph and description facing)	\$3.50	\$.35	Arum Aethiopica , Little Gem (miniature form),	\$1.50	\$.15
“ Dracunculus (<i>Dragon Arum</i>) ..	1.50	.15	“ Elliottiana , yellow-flowering, dry roots40
“ Aethiopica (<i>Trumpet Calla</i>), pure white, very popular, dry roots .	2.50	.25			

BULBOCODIUM.

B. VERNUM is one of the earliest of the flowering hardy bulbs. When planted in pots or as an edging, its rosy-purple crocus-like buds, peeping out of the soil, are very pretty in spring. It does well in ordinary garden soil.

Bulbocodium vernum, rosy-purple; very early..... per 100, \$4.00; per doz. 60c.

BABIANA.

These beautiful flowers are suitable for either frame or greenhouse, and should be grown by all lovers of bulbous plants.

Choice Mixed, containing a splendid and varied assortment of colours..... per 100, \$2.00; per doz. 35c.

ARUM—MRS. ROOSEVELT. (Photograph Reduced)

MRS. ROOSEVELT (*see photograph*).

This is an exceedingly beautiful variety, producing handsome soft lemon-coloured flowers and foliage of dark green, marked with splendid transparent silver blotches, making it a most attractive plant for decorative purposes. We recommend it for outdoor cultivation, but roots must be lifted in the Autumn before frost. This variety is of quite recent introduction and attracted great attention at the International and Holland House Shows, 1913. Per doz., \$3.50; each, 35c.

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

CYCLAMEN.

CYCLAMEN.

**A magnificent Flowering Plant
for Winter and Spring
Decoration.**

DRY BULBS.

Those who prefer growing from bulbs may obtain them in a dormant condition from August to November. These are potted up and kept in an airy place through the autumn, and brought into gradual heat in winter according to the time they are wanted for flowering, decorative or conservatory purposes.

	Per doz.	Each.
Carmine	\$1.50	\$.15
Deep Crimson	1.50	.15
Pure White	1.50	.15
Rose	1.50	.15
White, with rose base	1.50	.15
Mixed, all varieties ..	1.50	.15

Seeds of Carters Prize Cyclamen, named varieties, in sealed packets, price 65c per packet. Per 1,000 seeds, \$12.00; per 100 seeds, \$1.50. For list of named varieties see our 1914 spring catalogue, page 173-174.

CAMASSIA.

C. ESCULENTA is a handsome, hardy blue-flowering bulb, and is very worthy of culture. It has a beautiful bloom in May or June when well grown, and, like most of the family, it flowers better in a deep sandy loam, in a rather shaded position, than in any other situation. Bulbs are available from September till November.

Camassia esculenta, pretty blue star-shaped flower, produced on spikes 1 ½ ft. in height in May and June. Per 100, \$1.25; per doz., 20c.

CHIONODOXA.

(**Glory of the Snow.**) Very hardy early flowering bulbous plants for rockery or edges of beds.

Collected Wild Bulbs of Chionodoxa are worthless for garden purposes, and we offer only the best cultivated strains grown.

LUCILIAE.—Bright Blue with large white eye, rather lighter in colour than Sardensis. Per 1,000, \$12.00; per 100, \$1.50; per doz., 25c.

GIGANTEA.—A charming variety, with large flowers of similar shade of colour to Luciliae, white eye. Per 1,000, \$10.00; per 100, \$1.25; per doz., 20c.

SARDENSIS.—Rich Nemophila-blue coloured flowers and very small white eye. The flowers are borne in great profusion, and the appearance of the plant when in full bloom in the early spring months is most charming. Per 1,000, \$11.00; per 100, \$1.50; per doz., 20c.

CARTERS "CROWN JEWELS" BEGONIA BULBS.**Enormous Blooms, Single and Double.**

The most advanced strain of the day for pot culture. Specially grown by experts at our Nurseries. Delivery after December 1st.

Single Begonias, choice named, per doz. \$6.00 and \$9.00; each 75c and \$1.00.

Single Begonias, choice seedlings of named sorts; per doz. \$2.00, \$3.00 and \$4.00.

Double Begonias, choice named, per doz. \$6.00 and \$9.00; each 75c and \$1.00.

Double Begonias, choice seedlings, per doz. \$3.00, \$4.00 and \$6.00.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

THE CARTER SELECTION OF HYACINTHS.

12 Varieties, distinct and beautiful. Price, \$2.25.

Carters Selected *Bright Blue.

"	"	Claret.
"	"	Crimson.

CROCUS.

CARTERS ROYAL PARKS GIANT CROCUS.

Per 1,000, \$11.00; per 100, \$1.50; per doz., 20c.

Carters *Address for Correspondence,* BOSTON, TORONTO and RAYNES PARK, LONDON S.W.

CARTERS CROCUS GROWING IN THE GRASS AT WATERLOW PARK.

GIANT CROCUS—FOR OPEN GROUND OR POT CULTURE.

These giant varieties are selected for large size of bulb and flower, combined with hardiness of character. They are useful for bedding or pots.

The past season we were commanded by Commissioners of Works to His Majesty King George V to supply 116,000 of these lovely Crocus for planting in the various Royal Palace Gardens and Parks.

		Per 1,000.	Per 100.	Per doz.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

CHRISTMAS ROSE.

(HELLEBORUS.)

A Delightful Plant, of easy Cultivation.

The white blossoms, which closely resemble those of a single rose, are produced in masses from the crown.

They come in profusion, and with little effort, during the late fall if protected from frost. Hence the name of this popular flower is the Christmas Rose.

They are quite hardy.

For forcing, strong plants should be potted up early in the autumn in large pots, grown in a cool pit until they show signs of starting, then they can be removed to more heat, and later to the conservatory or greenhouse.

After flowering in pots, they may be planted out in the open, in a cool place, to mature their foliage, and will do again for conservatory decoration the following season.

Height, 1 foot.

	Per doz.	Each.
Helleborus maximus , giant variety.....	\$6.00	\$.60
Grand Clumps for forcing at Christmas ...	4.50	.50
Good Clumps for planting	2.50	.25
Helleborus New Hybrids (Lenten Roses) , ranging from white to rosy pink and red; some striped and spotted in various shades. Extra strong clumps	4.00	.35

CRINUM.

(AMARYLLIS LONGIFOLIUM.)

A tribe of Lily-like plants, and very popular in this country. CRINUM CAPENSE is one of the best and hardiest species. It will thrive out doors in a warm and sheltered situation in rich soil, and should be copiously watered in dry hot weather. All make beautiful flowering plants in the conservatory during summer.

	Per doz.	Each.
Crinum Capense , pink, strong bulbs	\$1.25	\$.15
“ “ Album , white, strong bulbs .	1.50	.15

CROWN IMPERIALS.

The beautiful varieties of red and yellow single-flowered FRITILLARIA IMPERIALIS, are very bold and handsome in the conservatory. They bloom naturally early in the season. By potting the bulbs early and assisting them with a genial temperature as soon as the young growth begins to make its appearance, they are sure to do well. In the herbaceous border they are equally satisfactory requiring little besides ordinary care. Height, 3 to 4 feet.

	Per doz.	Each.
Crown Imperials , single red.....	\$1.50	\$.15
“ “ single yellow	1.50	.15
“ “ fine mixed	1.50	.15

Carters Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

CROWN IMPERIAL.

FRITALLIRIA MELEAGRIS ALBA.

DIELYTRA SPECTABILIS.
(The Bleeding Heart.)

A rosy pink herbaceous plant for Christmas and Easter decorations. The roots we offer are supplied in a dormant state, and can be brought into flower very early in the winter if grown in pots and placed in moderate heat, near the glass, just as the flower stems are showing. It is also an exceedingly decorative plant in the open border in the early summer when in flower.

Height 18 ins. to 2 feet.

	Per doz.	Each
Dielytra Spectabilis , rosy pink, extra strong clumps.....	\$1.50	\$.20
Dielytra Spectabilis alba , white	4.00	.35

DAFFODILS and NARCISSUS.

See pages 35 to 47.

FRITILLARIA. (See photograph.)

These may be placed anywhere in the garden or amongst the grass, but they prefer a moist and partially shaded place, and when in clumps of a dozen bulbs in such situations they look both striking and beautiful when in bloom in May. Height, 9 inches.

Fritillaria Meleagris Alba—Pure white, per 100, \$2.75; per doz., 35c.
Fritillaria Meleagris—FINE MIXED—per 100, \$1.50; per doz., 20c.
Fritillaria Imperialis—See CROWN IMPERIALS, page 13.

DOG'S TOOTH VIOLET. (Erythonium.)

A very curious, but exceedingly pretty group of hardy plants, admirably adapted for massing in rockeries or garden borders. The foliage is elegantly marbled, and the flowers are exquisitely beautiful, greatly resembling Cyclamen in appearance. Height, about 6 inches.

	Per 100.	Per doz.		Per 100.	Per doz.
Red	\$1.75	\$.25	Fine Mixed	\$1.50	\$.20
White	1.75	.25	Grandiflora, Extra Fine Mixed,

EREMURUS.

The Eremurus are most imposing and effective when in flower from May to June, and they never fail to attract attention when planted in herbaceous borders or summer beds. Height, 6 to 7 feet.

Eremurus Himalaicus, producing long spikes the first year, per doz., \$7.00; each, 75c.

EUCHARIS.

The flowers of the beautiful Eucharis are frequently used in wreaths and other designs, on account of their pure white colour. This plant requires a moist heat in which to grow it well.

Eucharis Amazonica, per doz., \$6.00; each, 60c.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

FREESIA.

FREESIA PURITY.

The Freesia is of easy culture. Its flowers are produced in great freedom. As soon as the bulbs are obtained place ten in a 6-inch pot filled with a compost consisting of about three parts light sandy loam, and one of sweet leaf mould, with a few small crocks for drainage. When potted, water thoroughly, and place in a cool dry situation. As soon as the plants have made one-half inch of growth remove to a position near the glass, and shade them. As they increase in growth gradually inure them to light and a little air. To assist the production of stout flower spikes waterings of diluted liquid manure should be frequently applied.

Freesia Purity.—(The true, pure white variety.)

This new and improved large white variety is a decided improvement on all other varieties yet produced; is a much stronger grower producing a larger, stronger and bolder flower in conjunction with being very free flowering; is an excellent forcing variety, and used extensively for this purpose.

Purity Mammoth Bulbs.—Per 1,000, \$35.00; per 100, \$4.00; per doz., 65c.

Purity First Size.—Per 1,000, \$30.00; per 100, \$3.50; per doz., 50c.

Freesia Refracta Alba a pure white variety, strikingly beautiful, and exclusively perfumed. Bulbs of this variety are somewhat smaller than those of Freesia purity, and produce an abundance of flowers: per 1,000, \$14.00; per 100, \$2.00; per doz., 30c.

Freesia Refracta, enormous bulbs producing white flowers with yellow blotch on the lower petal, very fragrant: per 1,000, \$15.00; per 100, \$2.00; per doz., 30c.

Freesia Leichtlini Major produce large sprays of yellow and white flowers. Strong flowering bulbs: per 100, \$1.75; per doz., 25c.

CARTERS CARBONATED FIBRE and PREPARED MATERIALS.

Carters Prepared Carbonated Fibre.....bushel, \$1.00; ½ bushel, 60c; peck bag, 35c.
Carters Prepared Carbonated Shingle.....bushel, \$1.50; peck bag, 50c; bag, 30c.
Carters Prepared Bulb Compost, for ordinary pot culture3-bushel sack, \$2.50; bag, \$1.00

Hemerocallis Lutea flava , beautiful clear yellow.....	1.75	.20

HEPATICA.

A species of Anemone, flowering in the early spring. There are several varieties of these beautiful harbingers of spring, including in singles, white, blue, and red; and in doubles, red and blue. **H. Angulosa** produces a fine sky-blue flower on long stalks. The whole tribe is of service in beds and borders where they are not likely to be disturbed. Delivery in late Fall.

	Per doz.	Each.
Hepatica , single white.....	\$1.50	\$.15
“ single blue.....	1.50	.15
“ single red.....	1.50	.15

	Per doz.	Each.
Hepatica , double red.....	\$1.50	\$.15
“ double blue.....	3.50	.35
“ Angulosa , sky blue.....	2.00	.20

HYACINTHUS CANDICANS.

A tall-growing, bulbous plant, with long spear-like leaves. Planted in shrubberies or borders in early spring on rich soil, the following summer it throws up a candelabra-like spike of white bell-shaped flowers which are very effective, and make a splendid back-ground for Gladiolus. Height from 3 to 4 feet.

	Per 1,000.	Per 100.	Per doz.
Hyacinthus candicans , very large strong bulbs	\$22.00	\$2.50	\$.40

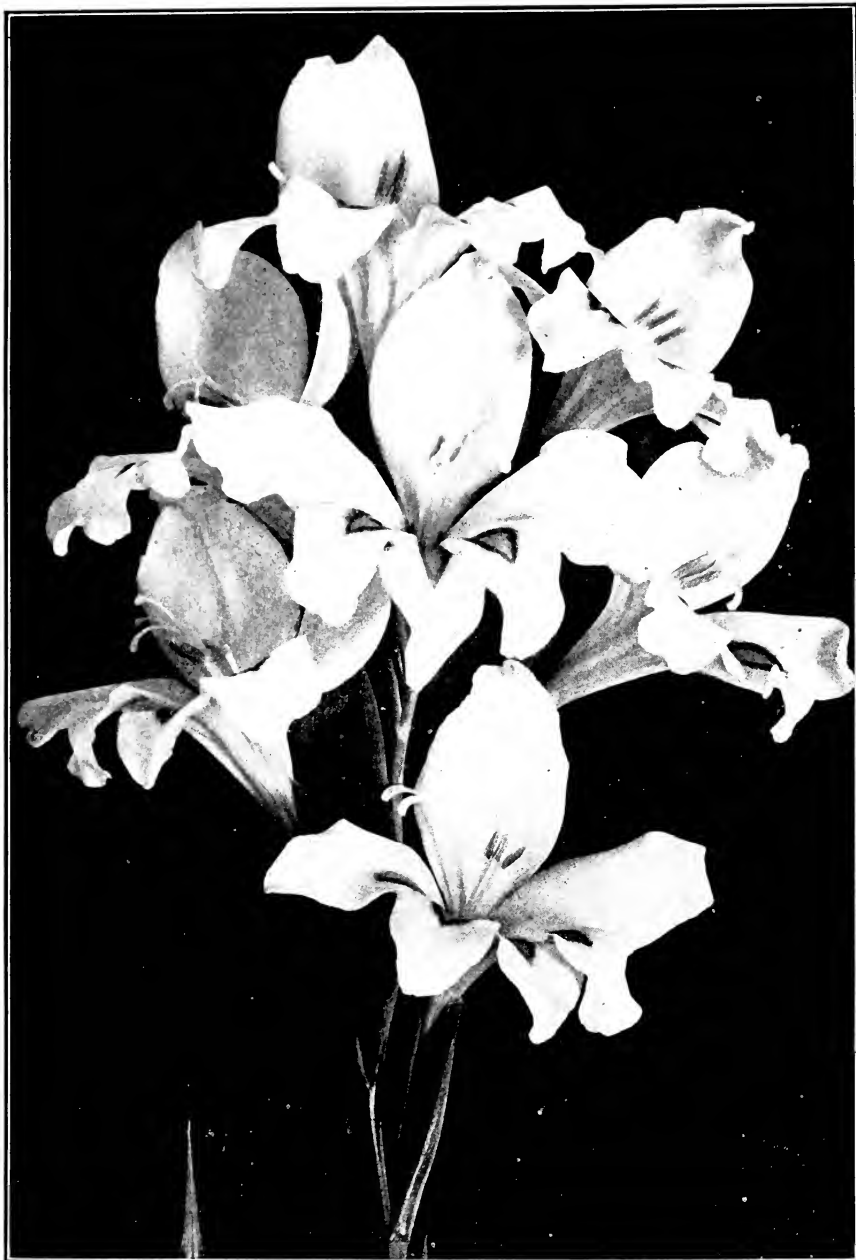

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

This beautiful flowering plant is very popular and exceedingly attractive in conservatory decoration. When grown from tubers they are treated somewhat like the Begonia, although during the younger stages of growth the plant prefers a moist, warm atmosphere. Directly the flower buds commence to burst they may be transferred to a drier situation. The soil recommended should be of a rich, loamy description, mixed with sand and leaf-mould, and they may be fed with liquid manure up to the time the buds appear.

Our stock of **Invincible Prize Gloxinias** embraces the greatest variety of colouring and form, including rich crimson, white and blue grounds, elegantly mottled, and a great variety of beautiful parti and self colours. The flowers are of immense substance, and will be found immeasurably superior to other strains. Delivery of Bulbs after December 1st.

Strong Bulbs, choice named varieties,
per 100, \$30.00; per dozen, \$4.00; each, 35c.

Unnamed Seedlings, from named sorts,
per 100, \$15.00; per dozen, \$2.00; each, 20c.

GLADIOLUS CARDINALIS, "BLUSHING BRIDE".

GLADIOLUS CARDINALIS

For Spring Forcing.

The cardinalis and colvelli types are decided winter and spring forcing varieties. The bulbs are ready in October and November. They force readily and are extensively used by both private and commercial growers as they make an excellent cut flower, and last a long time when cut and kept in fresh water.

Ackermanni, rose, with carmine and white blotches. Per 100, \$1.75; per doz., 25c.

Blushing Bride, white ground with deep crimson markings; superb. Per 1,000, \$15.00; per 100, \$2.00; per doz., 35c.

Fire King, rich salmon-red, with rose splashes on lower petals, these again flushed with magenta bars; a perfect gem. Per 100, \$12.00; per doz., \$1.50.

General Scott, carmine rose blotch on creamy white ground. Per 100, \$2.50; per doz., 35c.

Non Plus Ultra, salmon scarlet, blotched white. Per doz., 35c.

Peach Blossom, a new, charming peach-coloured variety. Per 100, \$2.50; per doz., 35c.

Queen Wilhelmina, warm rosy salmon; new, and distinctly handsome. Per 100, \$4.50; per doz., 75c.

Queen of Holland, pure white, flaked sulphur, dark rose bordered. Per 100, \$2.50; per doz., 35c.

Rosalie, light rose, darker blotch; very pretty. Per 100, \$3.50; per doz., 50c.

Rose Gem, rosy pink; a favourite in Covent Garden. Per 100, \$2.50; per doz., 35c.

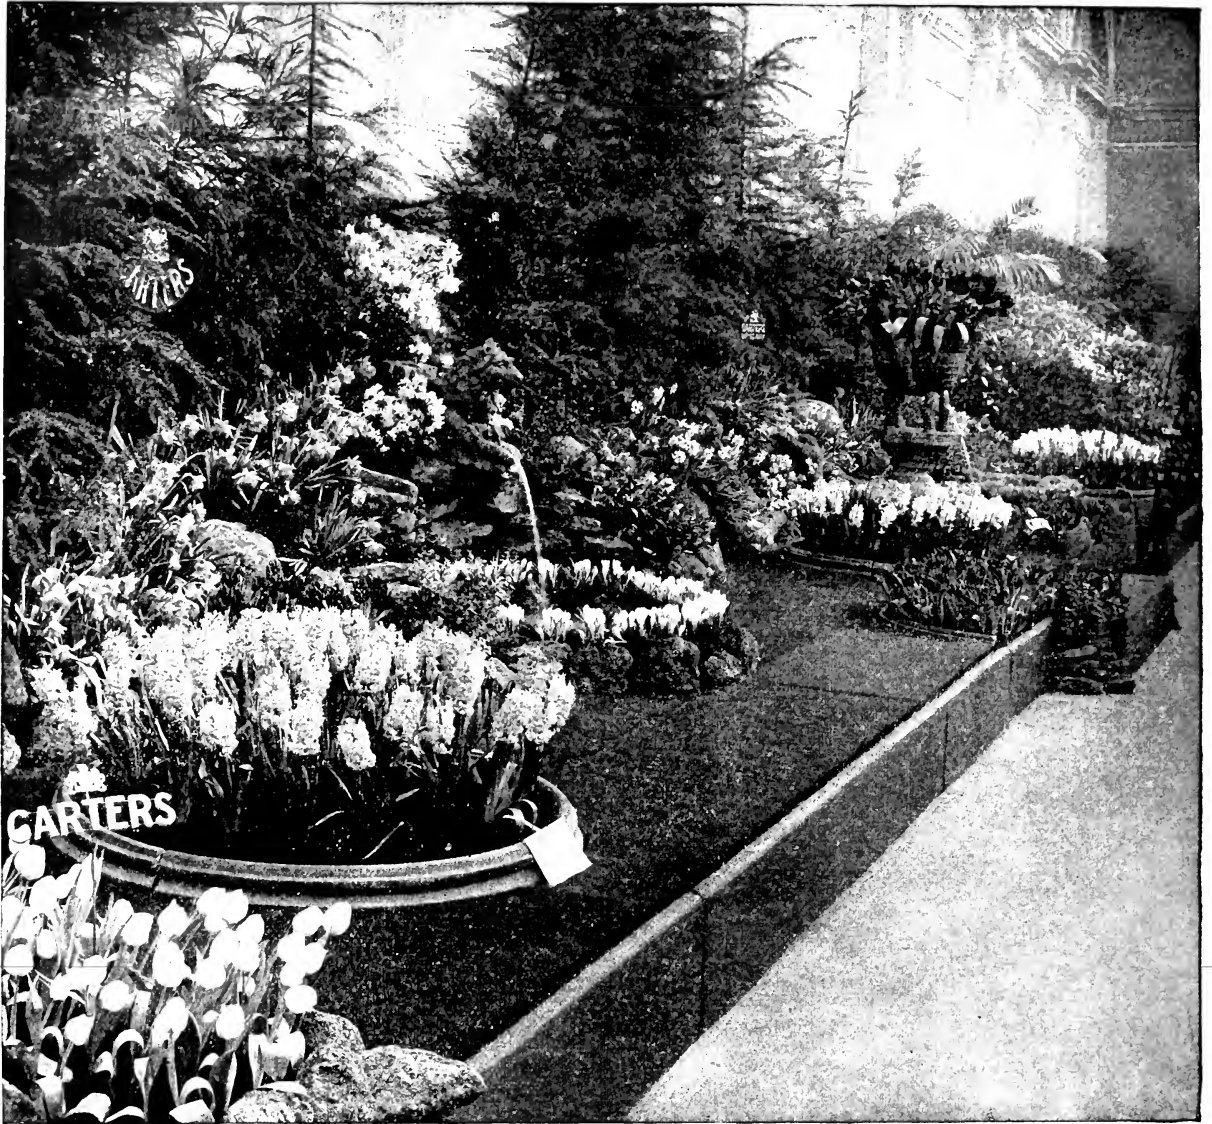

Salmon Queen, clear salmon pink; exquisite. Per 100, \$3.50; per doz., 50c.

The Bride (or *colvilei alba*), an exceedingly pretty and free flowering variety, pure white and most useful for decoration. Per 1,000, \$9.00; per 100, \$1.00; per doz., 20c.

Cultural Directions.

A good soil such as is used for potting bulbs is a suitable compost for growing these varieties. Plant bulbs in Flats or Pots. A 6-inch pot will hold about seven bulbs. Cover the same to a depth of one inch and place in a cool moist place. When they have made an inch or two of growth, they can then be moved into a warmer situation and kept growing, an occasional feeding of weak liquid manure will help to produce a larger flower spike.

HYACINTHS.

OUR DISPLAY OF SPRING FLOWERING BULBS AT THE LONDON HORTICULTURAL EXHIBITION, 1913.

CULTURAL HINTS.—Almost any good soil and situation suit these popular plants.

The best season for planting runs from September to the end of November. A few spare bulbs should always be planted separately to replace failures in the beds from vermin or other causes. A bed or border that has produced a heavy show of summer flowering plants needs renovating between the time they are lifted and the planting of the bulbs. The soil should be loosened and turned over, and a quantity of well-rotted stable manure incorporated—that taken from an old cucumber or marrow bed is suitable. The whole should then be levelled and made firm, and the bulbs put in as follows:—If the bed or border is square or oblong it is best to commence at one end, and make a trench the requisite depth—say, 4 inches—straight across. Into this place the bulbs at the proper intervals—say, 6 inches—or if it is intended to plant tulips, daffodils, and narcissus alternately in the row, the bulbs should be put equi-distant. For directions on Forcing Hyacinths see page 19.

Carters *Seedsman by Appointment to His Majesty the King—High Holborn, London.*

HYACINTHS FOR FORCING.

CARTERS EARLY WHITE ROMAN HYACINTH.

Begin potting Hyacinths early in September if a good and continuous succession is required. The best soil is a friable loam with a little leaf mould and old manure. A 4-inch pot will take one bulb nicely and larger sizes from three to five bulbs. Place the bulb, with a little silver sand under it, in the centre, so that when firmly planted in the soil the top will just be exposed. When potting is completed, water thoroughly and place the pots on a level bottom of coal ashes in a frame or other open space, put an inverted pot over the bulb, and cover the whole to a depth of 6 to 8 inches with ashes, cocoanut fibre, or decayed leaves, and there let them remain. If placed in such a position the beginning of September, in six to eight weeks the pots will be getting crammed with roots, and until that time it will be useless to try and force them to produce good flowers.

Carters *Address for* Correspondence, BOSTON, TORONTO, and RAYNES PARK, LONDON, S.W.

EARLY WHITE ROMAN HYACINTHS.

ROMAN HYACINTHS are popular on account of their earliness, for their abundance of sweetly perfumed flowers, and their value for decoration in pots, baskets, or vases at seasons when white flowers are scarce. To flower them by Christmas start Bulbs early in Sept.

CARTERS MAM-MOTH BULBS,

specially selected. Per 1,000, \$65.00; per 100, \$7.00; per doz., \$1.00.

First size, extra Selected Bulbs, per 1,000, \$55.00; per 100, \$6.00; per doz., 85c.

Ordinary size, per 1,000, \$50.00; per 100, \$5.00; per doz., 75c.

For a succession of bloom the following varieties are recommended to follow White Roman Hyacinths;—

Carters Early Blue Roman Hyacinths, per 100, \$3.00; per doz., 40c.

Carters Early Pink Roman Hyacinths, per 100, \$4.00; per doz., 60c.

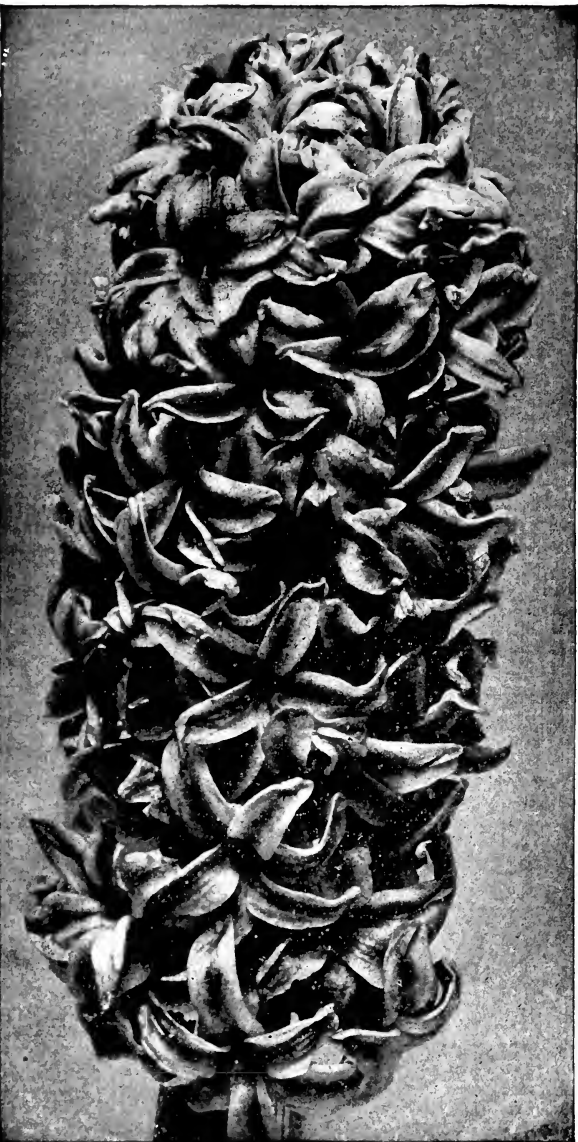

Carters Early White Italian Hyacinths, per 100, \$4.00; per doz., 60c.

Carters Early Pink Italian Hyacinths, per 100, \$4.00; per doz., 60c.

For Bulbs in Bowls,
See pages 49 to 52.

NAMED HYACINTHS (Single and Double).

Extra fine Bulbs, selected for exhibition and suitable for pots and glasses. We give special prominence to the Single varieties, as they are usually more reliable than the Double, especially for cultivation in glasses and water.

CARTERS ENGLISH IRIS.

CARTERS MEDAL EXHIBIT OF ENGLISH IRIS ROYAL HORTICULTURAL SOCIETY VINCENT SQ., MAY, 1913.

The English Iris is a type of this lovely tribe that is not nearly so largely grown as its beauty deserves. The species consists of many varieties, differing chiefly in shades of colour, in the bloom, in which white to sky blue largely predominate, but others are bright blue grading down to the richest purple. In some a trace of yellow veins or bands is seen. They reach a height of from one to two feet and flower in June and July from bulbs planted in autumn. They make fine border plants in deep light soil. Invaluable for cutting.

The bulbs should be planted as soon as procured, as they are very difficult to preserve when out of the ground.

	Per 100.	Per doz.
Blue Mourant , clear Wedgwood blue, with white blotch on falls	\$4.00	\$.60

IXIA.

No species of bulbous flowering plants exhibits in one family such brilliant colouring as the *Ixia*, and for cut flowers it is invaluable. Producing very erect flower spikes with a variety of colours, variations, and delicate markings seldom found in any other class of flowering bulbs.

Bulbs may be procured from September to December. They are quite miniature in size, and it seems remarkable that they should contain sufficient vigour to put forth such a profusion of lovely blooms. Their culture in pots is easy, they prefer a nice light sandy soil, and the pots should be stood in a cold frame until the roots have become active. If placed later in the greenhouse to mature, they must have plenty of air or the flowers may be scanty. Height 16 inches to 2 feet.

Barbara, white, deeply shaded magenta, violet eye, per 100, \$1.50; per doz., 20c.

Conqueror, bright yellow, heavily shaded orange scarlet, per 100, \$1.50; per doz., 20c.

IXIA FAVOURITE.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

DOUBLE CAMPERNEL JONQUIL.

JONQUILS

(or Rush-leaved Daffodil).

The Jonquil in all its forms is delightful in every collection of spring flowers where elegance, beauty, and delicious fragrance are the objects sought after. It is useful in a variety of ways, just as the Narcissus, its near relation. The flowers are smaller than Narcissus, but they lose none of their great attraction on this account, either when grown in pots indoors or out in the open ground. The bulbs also being smaller require to be planted closer together than the larger species.

LEUCOJUM.

The SNOWFLAKE, with its charming white drooping bells, should be much better known as a valuable addition to our early spring garden or on the grass. *L. VERNUM CARPATICUM* is an improved variety, and looks exquisite with its handsome white bells, just touched with a spot of green. The *L. AESTIVUM* comes into flower in June, and exhibits a very neat head with white blooms. They prefer a good sandy soil, but will grow in any ordinary compost. Plant as soon as ready in autumn about 2 inches deep and twice as far apart.

	Per 100.	Per doz.
Leucojum Vernum (Spring Snowflake)	\$1.50	\$.20
“ Carpaticum (Spring Snowflake), improved	2.00	.30
“ Aestivum (Summer Snowflake)	1.75	.20

LACHENALIA.

A graceful plant for pot culture and conservatory decoration in the spring, not nearly so well known as it should be. These Cape Cowslips produce drooping flowers on long spikes. They usually bloom in February and continue until May. They may be readily grown in baskets filled with moss and peat soil and suspended in conservatory, greenhouse, or drawing room. *L. NELSONI* has a rich translucent yellow flower which is very effective. *L. PENDULA*, red and yellow, pendant flowering; *L. QUADRICOLOR*, scarlet and yellow; and *L. TRICOLOR*, red, green, and yellow. They are permitted to dry off after flowering, and the tubers can be brought forward again the following autumn. They merely require potting in any ordinary soil used for that purpose, placed in a cold frame until they show their flower stems, when they may be removed to the greenhouse or conservatory.

	Per doz.	Each.		Per doz.	Each.
Lachenalia Nelsoni , First Class Certificate, R. H. S.; golden yellow.	\$2.00	\$.20	Lachenalia Quadricolor , scarlet and yellow	\$1.25	\$.15

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

LILIUM CANDIDUM.

The White Lily of English gardens, also known as the Madonna Lily, the Bourbon Lily, St. Joseph's Lily, and many other local names.

No other flower possesses such a record of historical associations as this white Lily, which, in all ages has been deemed the emblem of purity and chastity. It is perfectly hardy, and thrives in almost any soil, preferably in beds and borders where the bulb is not likely to be disturbed too often. Planted singly or in clumps in the autumn, from four to six inches deep, it will commence to grow almost at once, and throw up in the spring a strong stem clothed with leaves and headed in summer with a cluster of beautiful white blossoms, as shown above.

Enormous Bulbs, per 100, \$12.00; per doz., \$2.00; each, 20c.

Large Bulbs, per 100, \$8.00; per doz., \$1.50; each, 15c.

SHOWING
FLOWER SPIKE

	12.00	1.75	.20

LILIES.—The time of planting Lilies ranges from August to December, but as every day Lilies are out of the ground they lose something of their strength, the earlier they can be procured and planted the better. For the smaller varieties, plant in clumps, each bulb about 6 inches apart, leaving more space for the strong and larger species. The best mode of planting outdoors is in groups of three to nine bulbs in a mass.

The depth for planting Lilies varies greatly—some species, especially those native, will not thrive unless planted deep. On an average, we like to plant Lilies about 9 inches below the surface, which gives stem roots a chance to assist those under the bulb. When planting bulbs should not be laid in a scooped-out hole, but placed on a level loosened-up bottom, with some nice friable soil to root into, either singly or in clumps of three to six, each bulb 8 inches or so apart, according to sort.

For general cultivation in pots the Lily likes nice, rich, loamy soil. When the bulbs come to hand, they should be loosely plunged into some damp material, such as cocoanut fibre or ashes and placed in a shady and cool spot for, say, a fortnight.

The bulbs will then be in fit condition to be placed in pots (one bulb in a 5-inch pot). The pot should be half-filled, with soil and the bulb put into it, and not over-watered until growth appears. As the plant grows more soil may be added until the pot is almost full.

CARTERS
LILIUM AURATUM.

**The Beautiful Golden-Rayed
Lily of Japan.**

This grand Lily has now been brought to such a popular price that it should be largely grown in every garden. In soils suitable to its taste it will thrive in increased vigour each season, and should be extensively cultivated in such spots. It can be seen in its full beauty in association with ornamental shrubs and bold-leaved herbaceous plants. It flowers in July and August.

We have made arrangements for large consignments of this beautiful Lily to reach us direct from the growers, and are certain to handle the pick of the Japanese harvest.

All bulbs are hand picked and carefully examined before despatch.

LILIUMS

(Continued).

CARTERS

LILIUM

LANCIFOLIUM.

Next to the *Lilium auratum* we must place the *lancifolium* or *speciosum* type, so exquisite in form and so easily cultivated. Specimens frequently may be seen flowering abundantly from pots in the squares and on balconies in the very centre of our large cities late in summer, and coming at a time of year when flowers are scarce makes it doubly welcome. It thrives well out in the border, and, with its pure chaste white, orange, crimson-spotted and rose spotted flowers, is very attractive.

LILIUM LANCIFOLIUM RUBRUM.

	Per 100.	Per doz.	Each.
Lancifolium album , beautiful white	\$22.00	\$3.00	\$.30
“ roseum , delicate rose spots	15.00	2.00	.20
“ rubrum , rich crimson spots	15.00	2.00	.20

“ Henryii (the orange yellow <i>Speciosum</i>), deep orange yellow	40.00	5.50	.50
“ Melpomene , ruby-crimson spots, very beautiful	15.00	2.00	.20
“ magnificum , splendid new variety from Japan, dark crimson spotted, very beautiful	16.00	2.50	.25

The finest of all hardy Lilies for pot culture, alike for beauty, infinite variety, fragrance, and easy culture, are **L. Auratum** and **L. Lancifolium**. Hardy Lilies for forcing should be started any time from the first of January to May 30th. Under ordinary conditions Lilies may be had in bloom from May to November.

Lilium Auratum, the Golden Rayed Lily of Japan, is one of the most magnificent varieties. It can be forced into flower early in the summer, is most attractive when grown in a natural way and allowed to bloom in August, whilst its elegant relation the Easter Lily is invaluable as a winter and spring decorative plant, and is very largely grown for Christmas and Easter festivals, where its immense trumpet flowers of snow-like purity are invaluable.

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

LILY OF THE VALLEY.

By the modern method of cold storage we are able to supply forcing roots of this pretty decorative plant through the winter months. One advantage retarded roots have over those handled in the ordinary way is the quick time in which the flowers are produced. We have seen dormant crowns put into heat and brought into bloom within three weeks, we recommend from four to five weeks as the average time for a perfect flower spike.

In ordinary seasons **Lily of the Valley** roots generally come to hand late in October. A **Crown** is the description given to a single rootlet or pip. They are generally sold in bundles of 25, and are the best for pots and forcing. A clump is a large conglomerated mass of roots that will produce a quantity of flowering spikes. Clumps are preferred for a permanent bed in the garden.

	Per 1,000.	Per 100.	Per 25.
Carters Finest Selected Crowns , for forcing. In bundles of 25.....	\$20.00	\$2.50	\$.75

		\$3.50	\$.50
		Per doz.	Each.
Imported Clumps , very fine stock.		\$3.00	\$.30

COLD STORAGE OR RETARDED LILY OF THE VALLEY.

We have made arrangements by which we have a continuous supply during winter. **Giant Flowering Retarded Crowns** for all seasons, per 1,000, \$22.50; per 100, \$2.75; per bundle of 25, 75c.

CONVALLARIA (Solomon's Seal).

CONVALLARIA POLYGONATUM GIGANTEUM makes a nice pot plant for early decoration in conservatory, but is more often grown as a hardy border plant. Very effective. We offer the true form of *Giganteum*, which is superior to all other varieties for forcing or for massing in the border.

Strong roots, price per 100, \$3.00; per doz., 40c.

Carters *Seedsman by Appointment to His Majesty the King—High Holborn, London.*

MONARCH OF THE EAST.

(As originally
named and
offered by us.)

A
REMARKABLE
NOVELTY.

MONARCH OF THE EAST
IN DECORATED CHINA BOWL.

This remarkable plant exhibits one of those extraordinary traits in Nature that few are able to understand, for the magnificent flowers actually come out of the dry bulbs without being placed in soil or water.

The flower sheath reaches a length of nearly 2 feet, is of red-brown colour, tipped with red and yellow, whilst the inner parts of the flower are equally brilliant. The bulbs need only be placed in some fancy receptacle, **without water**, in a warm room, or on a mantelshelf, when, without showing either leaves or roots, the flower makes its appearance early in the year, thriving entirely upon the nourishment contained within the bulb.

Directly after the flower fades, and a growth appears to be coming from the bulb, it should be potted in rich soil and freely watered. Later on an umbrella-shaped leaf will be formed on a stout stalk spotted with a granite-like colour, and sometimes reaching a height of 3 feet.

Extra strong bulbs. Price, per doz., \$2.00; each, 20c.

Handsome Decorated China Bowls for placing these bulbs in.

Price 20c, 30c, 50c each.

For full list of decorated and fancy bowls, see pages 51, 52.

"TULIP DAY AT THE ROYAL HORTICULTURAL HALL.—The greatest novelty was, perhaps, to be found at Messrs. Carters stall. Here was to be seen four Tulips growing from one stalk. This variety was grown by M. S. Mottet, and is a rare novelty. The firm have this year succeeded in producing nine flowers from one stalk, but the number, it is found, varies to some considerable extent, four flowers being about the average."—*The Standard*, May 15, 1913.

THE NEW TULIP, SEE PAGE 66.

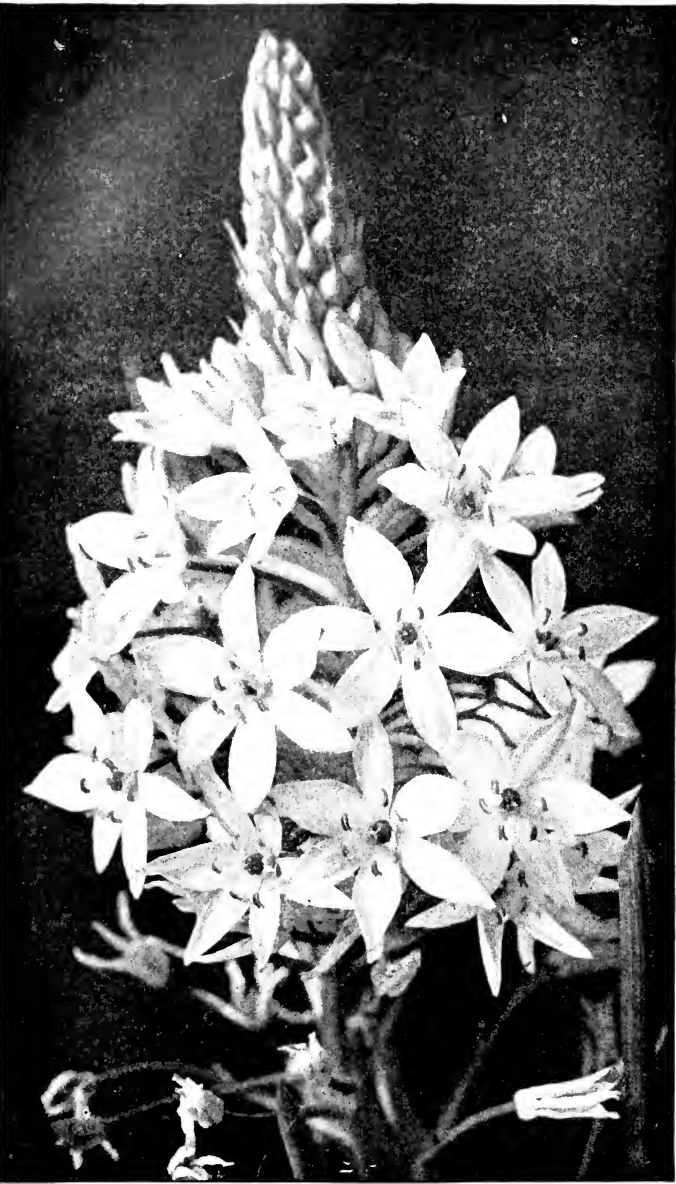

MONTBRETIA.

MONTBRETIAS are very pretty tuberous-rooted flowering plants, bearing showy spikes of blossom during summer. Usually treated like the gladioli, but if given a sufficient protection they can be left in the ground all winter, they are very useful for cutting. Are easily grown in a sunny open border, or indoors in pots. When established in borders a wealth of spikes may be expected, as they multiply rapidly. Height, about 2 feet. Plant to a depth of 5 to 6 inches in spring.

	Per 100.	Per doz.

ORNITHOGALUM PYRAMIDALE.

MUSCARI, HEAVENLY BLUE.

MUSCARI (Grape and Feathered Hyacinths).

The MUSCARI are worthy of attention, as they differ so from any other flower. In habit they are dwarf, and appear most at home in sheltered banks or near the front of dry or warm borders. The GRAPE HYACINTHS are very interesting. The blue species, M. CONICUM, is the most beautiful of all. The HEAVENLY BLUE variety and BOTRYOIDES ALBA make a charming effect when planted in beds with Tulips and Narcissus. Plant 2 inches down, 2 inches apart.

		Per 1,000.	Per 100.	Per doz.

Carters Seedsman by Appointment to His Majesty the King—High Holborn, London.

By careful selection Narcissus and Daffodil may be had in bloom from April 1st to end of May in the open ground, and to assist in this respect we have numbered each variety in accordance with the following list:—No. 1, April 1st to 15th; No. 2, through April; No. 3, middle of April to early May, No. 4, early May to middle; No. 5, through May. Some allowance must be made for late planting, ungenerous soils, and exceptional seasons.

SECTION I.

Embracing those varieties having large trumpets, and arranged in order of earliness.

	Per 1,000.	Per 100.	Per doz.
Bulbocodium. —(3) The golden yellow Hoop Petticoat, quite distinct; height 6 inches	\$30.00	\$3.50	\$.50
Emperor. —(3) The noblest Primrose Daffodil and a profuse bloomer, mammoth bulbs	25.00	3.00	.50
See photo on page 38. Strong flowering bulbs	20.00	2.50	.40

TRUMPET NARCISSUS

CARTERS "KING ALFRED"

Described on page 37.

CARTERS CHOICE NARCISSUS, "KING ALFRED".

See Photograph, Page 36.

The Great Trumpet-flowered Daffodil of the South. Height 2 feet.

First Class Certificate R.H.S., LONDON.

First Class Certificate BOSTON, U.S.A.

First Prize, NEW YORK, U.S.A., April, 1913.

CARTERS KING ALFRED NARCISSUS.

This magnificent Giant-flowered Trumpet Narcissus is without doubt unsurpassable for size and beauty of flower. Its height gives it a most stately appearance and places it far in advance of all other Trumpet sorts.

DESCRIPTION.

The trumpet itself is a rich deep pure yellow. Is of great size and substance, exquisitely finished, the mouth is turned well back and beautifully frilled.

The perianth are of the same rich yellow shade as the trumpet, thick and strong, and magnificently formed; making the perianth a perfect setting for the immense trumpet.

The foliage has a delicate glaucous tint, and is in perfect keeping with the general character of this truly unique Narcissus.

The variety is an early one, flowering in a favourable season in April.

CARTERS KING ALFRED the great Narcissus of the day; quite new and distinct, a vigorous grower, thriving equally as well under glass as out of doors. Price per doz.; \$5.00; each, 50c.

New and rare varieties of Narcissus of exquisite charm and durability, strongly recommended for exhibition purposes.

	Per 100.	Per doz.	Each.
Evangeline (<i>Leedsii</i>).—This variety we recommend strongly as being one of the best in the Leedsii section, perianth pure white, cup a soft lemon, a tall and vigorous grower.....	—	\$6.00	\$.60
Argent (<i>Incomparabilis</i>).—A beautiful double variety, creamy white segments, yellow centre, very fine for exhibition	\$8.00	1.50	.15
Albatross (<i>Barri</i>).—A grand flower, spreading white perianth, pale yellow cup, edged orange scarlet. First Class Certificate, R.H.S.	8.00	1.50	.15
Madame de Graaff (<i>Trumpet</i>).—Magnificent white variety, large expanded trumpet. First Class Certificate, R.H.S.	15.00	2.00	.20
White Lady (<i>Leedsii</i>).—A most handsome variety, with fine broad white perianth segments, and a pretty frilled cup of the palest canary yellow,	8.00	1.50	.15
Incognita (<i>Engleheartii</i>).—Grand flower, large white perianth, cup of orange apricot, buff margin. Award of Merit, R.H.S.	—	7.50	.75
Gloria Mundi (<i>Incomparabilis</i>).—A fine-formed flower, broad yellow perianth, segments well expanded, orange red cup, a strong grower	—	3.00	.30
Golden Bell (<i>Ajax</i>).—A strong variety, with large frilled trumpet and yellow perianth	—	1.50	.15
Homer .—One of the finest of the <i>Poeticus</i> section, beautiful pure white perianth and very brilliant coloured eye	—	3.00	.30
Oriflamme .—A very dainty <i>Burbidgei</i> type of flower, with creamy white perianth and brilliant red cup	—	1.50	.15

NARCISSUS.

The Emperor Narcissus.—A very noble free-flowering type, with rich yellow trumpet and primrose standard. Now offered at reasonable prices.

Mammoth Bulbs, per 1,000, \$25.00; per 100, \$3.00; per dozen, 50c.

Strong Flowering Bulbs, per 1,000, \$20.00; per 100, \$2.50; per dozen, 40c.

For other Trumpet varieties, see opposite page.

ALL OUR BULBS ARE PICKED FOR SIZE AND QUALITY.

Carters Special Collection of Narcissus and Daffodils, see pages 9 and 10.

Carters *Seedsman by Appointment to His Majesty the King — High Holborn, London.*

DAFFODIL SIR FRANCIS DRAKE.

(See the larger photograph, reduced.)

An exceedingly early and robust-growing Trumpet Daffodil, raised by the same grower as our celebrated *King Alfred*, coming earlier into bloom, and quite distinct in character.

The flowers are as large as *King Alfred*, and stand on stems two feet high, in colour similar to *Emperor*, but rather deeper, and very refined and beautiful in form, with splendid green foliage.

It was the centre of attraction at the Spring Show of the Royal Horticultural Society last season.

Price, 75c. each.

SIR FRANCIS DRAKE.

ROYAL HORTICULTURAL SOCIETY'S SPRING SHOW.

"Once again Messrs. James Carter & Co., of Raynes Park, staged a large exhibit of bulbs, masses of the beautiful daffodil *Sir Francis Drake* being the principal feature of their display. The highest credit is due to this firm for their wonderful arrangement of rockwork and lawn, setting off to advantage the bulbs and rock plants which they were placing before the horticultural public."—*The Country Gentleman*, March 22nd, 1913.

MADAME DE GRAAFF.

(The small photograph greatly reduced.)

An exceedingly handsome white Daffodil large expanded primrose trumpet passing to white.

Price, per 100, \$12.00; per doz., \$1.50; each, 15c.

MADAME
DE GRAAFF

CARTERS VICTORIA NARCISSUS.

This variety, though of earlier introduction, still stands as one of the great favourites in the Trumpet Narcissus. The flower is of immense size, trumpet a clear yellow, and silvery white perianth, which stands out in a specially marked manner from the trumpet. While being splendid for bedding and borders, it is also one of the best varieties for bowls and pots. (See page 50.) The photograph is greatly reduced from natural size.

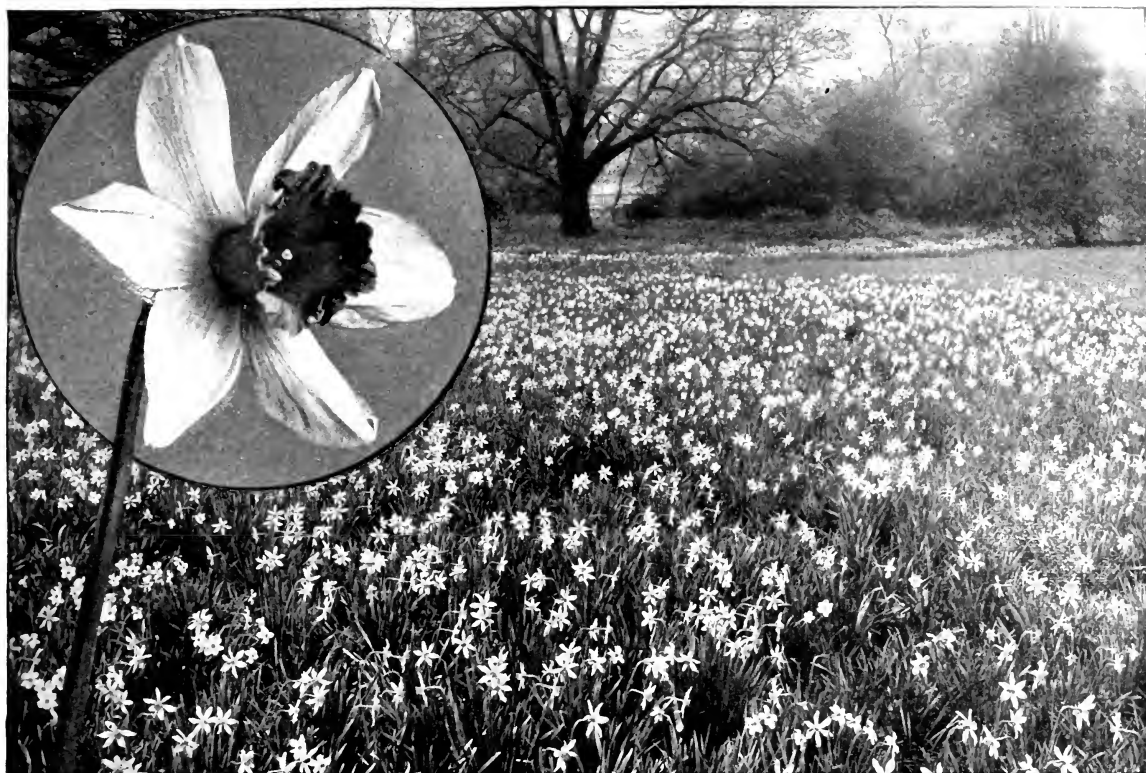

Price, per 1,000, \$22.00; per 100, \$2.50; per doz., 40c.

CARTERS VANILLA SCENTED NARCISSUS.

This is a grand, tall-growing, and very handsome variety, having a fine bold trumpet of deep yellow, with paler perianth segments, and possessing the added charm of a most pleasing and delicate odour. It flowers about the same time as *Emperor*, and is a good variety for forcing.

Price, per 100, \$7.00; per doz., \$1.00; each, 15c.

Carters *Address for Correspondence,* BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

CARTERS DAZZLER NARCISSUS.

Without doubt one of the most beautiful varieties in cultivation the above photograph gives a good idea of its striking eye and colouring. The flower is in truth dazzling hence its name. Price per doz., \$10.00; each, \$1.00.

DAIRYMAID.

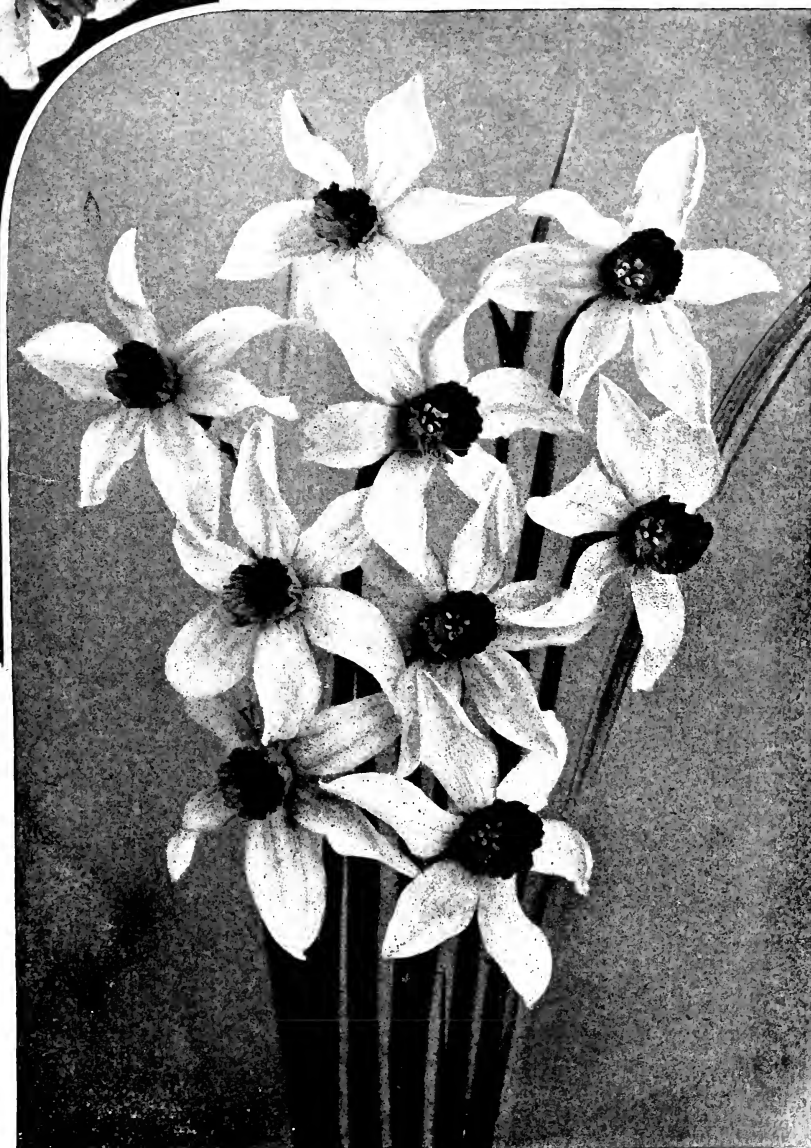

Firebrand (*Barri*).—This charming variety is recognized by lovers of the Narcissi as one of the most striking ever raised. Our photograph gives a good idea of the form of this graceful flower, but does not convey what is all important—the splendid vivid colouring of the cup, which is a wonderful fiery scarlet, perianth being a creamy white makes a most remarkable flower.

Price per 100, \$6.00; per doz., \$1.00; each, 10c.

TWO NEW AND CHARMING NARCISSI.

Dairymaid (*Incomparabilis*).—This is an extremely pretty narcissus of very recent introduction having a pure white perianth of good substance and a cup of pale lemon colour. When shown at the shows of the Royal Horticultural Society, this variety created considerable attention, it forms a marked contrast to **Firebrand** (see photograph below).

Price, per 100, \$6.00; per doz., \$1.00; each, 10c.

FIREBRAND

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

CARTERS NARCISSUS POETAZ WHITE.

CARTERS CHOICE
HYBRID NARCISSUS POETAZ.

A new and distinct race of Narcissus, being the result of crossing *Poeticus ornatus* with the Polyanthus section, and having the robust habit of Polyanthus Narcissus combined with the hardiness of Narcissus *Poeticus ornatus*.

They will force splendidly, and for bedding are unequalled.

Per 100. Per doz.

Single bulbs, 10c each.		

POLYANTHUS NARCISSUS, BRAZELMAN MAJOR.

ROOM GARDENING.

It is now not only possible, but very simple, to keep a room bright with living and growing flowers from Christmas to Easter by means of growing bulbs of Hyacinths, Daffodils, and Narcissus in bowls or basins, without any of the untidiness usually associated with plants in pots.

This mode of room decoration was introduced by us some years since, when we offered the bulbs planted with shingle in gaily decorated Japanese bowls. We have lately made further experiments, and instead of employing shingle for the rooting material now we offer a specially prepared fibre, which we find very suitable, being cleanly, light, and quite odourless. **See illustrations on opposite page.**

When our materials are used the following hints on cultivation should be followed, and the bulbs planted as follows:—

Sprinkle fibre, which should be thoroughly moistened, over the bottom of the bowl to a depth of $1\frac{1}{2}$ inch, carefully place the bulbs upon the fibre, taking care that they do not touch each other, then fill up the bowl with fibre. Although it is desirable that the fibre should be all around the bulbs, it must not be packed too tightly, and must cover the top of the bulbs.

Start the bulbs into growth by thoroughly saturating the fibre with water, drain off and keep moist; then place the bowl in an airy room or shelf in a subdued light. When the young growth pierces the fibre, the bulbs may be placed on a table near a window or some other light place to mature their growth and come into flower.

Below we give a list of bulbs suitable for bowls, when to start them, and when to expect them to bloom. The season may be extended by earlier or later plantings.

LIST OF SUITABLE BULBS FOR ROOM GARDENING.

CARTERS COCKADE RANUNCULUS.

**CARTERS
COCKADE
RANUNCULUS.**

Carters Cockade,

show a splendid variety of colours, and immense double flowers, fitting in all respects to be cultivated by the side of the "Empress Poppy" Anemone, and equally superior with that variety to any other class of Ranunculus.

The flowers are of immense size, and combine every possible shade of colour peculiar to this interesting and easily-cultivated flower. It is impossible to over-estimate their value to all lovers of hardy border flowers.

This beautiful early summer border plant belongs to the buttercup family. The types now popular in this class under consideration would, from their gay appearance form and colour, be hardly recognized as a relation to this modest denizen of the field. The cultural directions are the same as advised for Anemones.

Price, per 1,000 \$10.00; per 100 \$1.50; per doz. 20c.

DOUBLE PERSIAN RANUNCULUS. *A very pretty flower when well grown.*

8 doz. roots in eight named varieties	\$1.50
4 " " " " " " " "85
2 " " " " " " " "35

Extra Fine Double, Mixed, very large roots, per 1,000, \$6.00; per 100, 75c

CARTERS TURBAN RANUNCULUS.

This group is of more sturdy character, and includes some very showy colours

350 roots, comprising 50 of each of 7 distinct colours.....	\$2.50

SCILLA CAMPANULATA ALBA IN THE GARDENS AT HAMPTON COURT.

SCILLAS.

SCILLAS are of easy cultivation, and will thrive almost anywhere. Perhaps the best-known garden variety is the beautiful blue Siberian Scilla, which flowers early in the year in any position in the open ground. The white SIBERICA ALBA and the S. CAMPANULATA ALBA (*see photograph above*) are both varieties which should be more widely known.

FOR FLOWERING FROM FEBRUARY TO MAY.

	Per 1,000.	Per 100.	Per doz.
Scilla Siberica (<i>The Siberian Squill</i>), rich blue, largely planted for naturalization in the Royal Parks	\$10.00	\$1.50	\$.20
Scilla Siberica Alba , pure white, a charming flower. A fitting companion, planted alternately with <i>Siberica</i> , or say two blue and one white	10.00	1.50	.20
Scilla Belgica , blue, red, and white mixed	7.00	1.00	.15
Scilla Campanulata Carnea , rose-coloured	8.00	1.25	.20
“ “ Alba (<i>see photograph</i>), pure white	8.00	1.25	.20
“ “ Blue , true	7.00	1.00	.15
“ Nutans , Bluebells (Wood Hyacinth)	6.00	.75	.15

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

CLUMP OF SNOWDROPS, MAKING A CHARMING EFFECT.

SNOWDROPS.

CARTERS GIANT SINGLE (*Galanthus Elweesii*).

The Snowdrop will be found to thrive best in shady banks or moist nooks, and the best plan to adopt is to assign to it a situation as nearly as possible akin to its nature as can be. The bulbs may be planted almost close together and not less than three inches deep.

Per 1,000, \$6.00; per 100, \$1.00; per doz., 20c.

	Per 1,000.	Per 100.
Single Snowdrop, Extra Large Bulbs	\$8.50	\$1.25
“ “ Good Bulbs	7.00	1.00

CARTERS TRUE DOUBLE SNOWDROP.

These have been cultivated especially for us, and can be relied on to produce true double flowers.

Large Bulbs per 1,000, \$10.00; per 100, \$1.50.

DOUBLE SNOWDROPS.—Collected Roots.

Containing a small proportion of the single variety.

	Per 1,000.	Per 100.
Double Snowdrops—Extra Large Bulbs	\$8.00	\$1.00
“ “ —Good Bulbs	6.00	.80

Carters Address for Correspondence BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

SPIRÆA.

The SPIRÆA embraces a large number of species, varying from shrubs to herbaceous plants. It is with the latter that we are now most concerned—such as are used in the winter and spring decoration of rooms and conservatories. The dormant roots or clumps, can be placed singly into 6-inch pots, or a size larger if necessary. If given plenty of water as soon as they commence to grow, and kept in heat, they will become effective very quickly.

Snowdrift (*see photograph*), produces in profusion a mass of elegant feathery white blossoms of the greatest value for decorative purposes, from early spring to mid-summer. The roots are supplied in large dormant clumps. Per 100, \$14.00; per doz., \$2.00; each, 20c.

Japonica (extra strong clumps for forcing or borders), valuable for table decoration. Per 100, \$7.00; per doz., \$1.00; each, 15c.

SPIRÆA SNOWDRIFT.

Gladstone , beautiful snow-white flakes of blossom, large and compact.	per 100, \$12.00	\$1.50	\$.20
Astilboides Floribunda , an improved form; very free flowering	per 100, \$8.00	1.50	.15

		Per doz.	Each.
Compacta Alba , a neat-growing variety of Japonica	per 100, \$9.00	\$1.50	\$.15
Palmata , crimson purple.	per 100, \$12.00	1.75	.20

TWO CHARMING SPIRÆA NOVELTIES.

Queen Alexandra produces long feathery plumes of bright pink flowers, and both these varieties were favourably commented on by the judges at the Temple Show, a Gold Medal being awarded.

Large Roots, per 100, \$15.00; per doz., \$2.00; each, 25c.

Peach Blossom produces flowers of a lighter shade of pink than the foregoing variety, but from their delicacy of colouring when in bloom we are confident that these two charming Spiræas will be extensively used for house and table decoration.

Price of large dormant roots, per 100, \$15.00; per doz., \$2.00; each, 25c.

SPARAXIS.

The Sparaxis are a tribe of bulbous plants from South Africa, and a near relation of the Ixia family, see page 26. Among them are many curious combinations of colours. The bulbs, which are very small, are available from October to December, and are useful for either pot or border culture. Flower from April to June.

Choice mixed , Guernsey-grown, very fine, per 100, \$1.00; per doz., 20c.	Good mixed , per 100, 75c; per doz., 15c.
--	--

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

ONE OF CARTERS SPRING GARDENS, EXHIBITED IN THE ROYAL HORTICULTURAL SOCIETY'S HALL, 1913

TIGRIDIA (Tiger or Shell Flower).

Some beautiful hybrids of this showy flower have appeared during recent years. The bulbs, which are supplied in a dry state, are usually planted in pots in April, or in groups in the garden in a rich sunny border. They maintain a succession of bloom throughout the summer.

	Per 100.	Per doz.
Canariensis , yellow, spotted	\$2.00	\$.30
Grandiflora Alba , white, spotted	1.75	.25
Lilacea , purplish lilac, spotted	2.00	.30
Immaculata Lutea , pure yellow	2.00	.30

	Per 100.	Per doz.
Immaculata Alba , pure white	\$1.75	\$.25
Pavonia , scarlet	1.75	.25
Rosea , bright rose	2.00	.30
Speciosa , red and yellow	1.75	.25

TRILLIUM GRANDIFLORUM.

Wood Lily or Trinity Flower.

A most effective early spring flowering perennial, a free grower and perfectly hardy. Per 100, \$4.00; per doz., 60c.

TRITELEIA.

UNIFLORA is exceedingly pretty in a spring border, where it should be permitted to remain. The flowers are star-shaped, white in colour, with a delicate ray of blue round the centre.

	Per 1,000.	Per 100.	Per doz.
Uniflora , pretty star, white flower	\$4.00	\$.50	\$.10

	Per 1,000	Per 100.	Per doz.
Violacea , violet edged	\$4.00	\$.50	\$.10

TRITOMA (Kniphofia).

TRITOMA UVARIA (or Torch Lily). Thrives well in fairly rich soil, and when established is a noble feature. Is known as "the red-hot poker," its spikes of blossom giving it this appearance.

	Per doz.	Each.
Uvaria Grandiflora , scarlet and yellow ..	\$1.50	\$.20

	Per doz.	Each.
Ideal , large compact flower heads of purest scarlet	\$2.00	\$.30

TROPÆOLUM.

The tuberous kinds of Tropæolum display much beauty, and are suitable either for conservatory or flower garden. They delight in a rich loam, leaf mould, and sand. Tricolour should be potted up in the autumn, and allowed to make way during the winter in an airy greenhouse. The thread-like stems if trained up light trellises will afford a pretty effect when in leaf. Tubers may remain in the ground, if given sufficient protection against frost.

	Per doz.	Each.
Tricolour , scarlet and yellow	\$1.50	\$.20
Speciosum , vermillion	1.50	.20

	Per doz.	Each.
Tuberosum , red and yellow	\$1.25	\$.15

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

TULIP, COTTAGE MAID

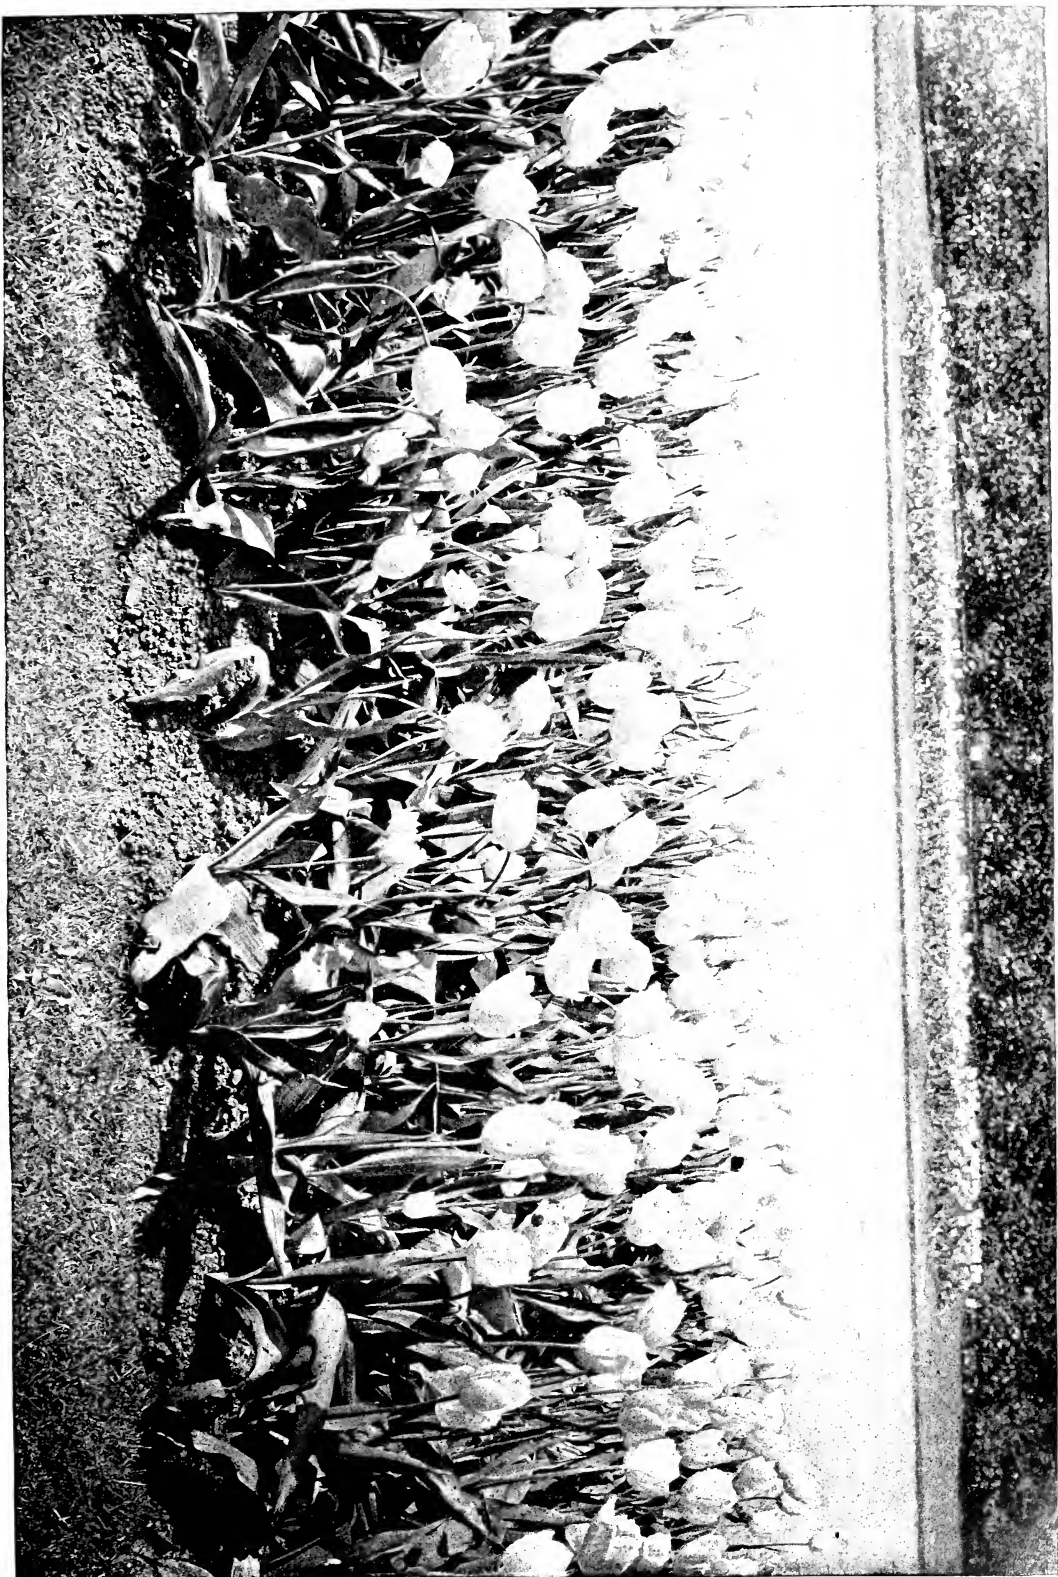

TULIPS FOR FORCING.

For our customers' guidance when making a selection of Tulips, we have numbered each variety in their order of flowering (No. 1 blooming first), so that by a careful selection a nice succession of blooms may be obtained, or, on the other hand, a grand display may be ensured by choosing only those varieties with the same number. For beautiful colour effects we refer our readers to page 62 for our Royal Parks Selection of Single varieties, and to page 63 for the Royal Parks Double varieties. These are selected for simultaneous flowering in each section, the Doubles being a week or so later than the Singles.

		Height.	Per 100.	Per doz.
Duc van Thol.	—(1) Red, with yellow edge, single	7 in.	\$1.75	\$.25
"	—(1) Cochineal, rich vermilion, very early, single	8 "	2.50	.35
"	—(1) Rose,	7 "	2.00	.30
"	—(1) Brilliant scarlet,	8 "	2.00	.30
"	—(1) White, large flowered,	7 "	1.75	.25
"	—(1) Yellow,	7 "	2.00	.30
"	—(1) Mixed,	7 to 8 in.	2.00	.30
"	—(1) Red, yellow-edged, double	7 in.	1.50	.25

Growers for Flower Market generally use these varieties for their first supplies, as they are very early, brilliant in colour, dwarf in habit, and for conservatory decoration in winter they are invaluable.

Carters *Address for Correspondence,* BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

CARTERS SWEET-SCENTED TULIP, "MARECHAL NIEL."—(3.)

COLOUR: Orange red delicately shaded yellow.
Height, 15 inches. (Recommended for forcing.)

We had this lovely Tulip under trial to test its fragrant properties, and one and all of those friends to whom we gave bulbs report upon its odorous favours. One lady, who utilized them as cut flowers, declares her room was filled with

the fragrance of *Marechal Niel* roses. We noticed a similar odour in our own conservatories to such a degree that the whole atmosphere seemed permeated.

Picked Bulbs, for growing in pots, price, per 100, \$2.50; per doz., 35c.

"The bulbs have always flowered splendidly, and have won the admiration of everyone who has seen them. The lovely fragrance of this beautiful variety is deserving of special comment.—Mr. B. HODGSON, Gardener to Mrs. Falconer.

"TULIP DAY AT THE ROYAL HORTICULTURAL HALL.—The greatest novelty was, perhaps, to be found at Messrs. Carters stall. Here were to be seen four Tulips growing from one stalk. This variety was grown by M. S. Mottet, and is a rare variety. The firm have this year succeeded in producing nine flowers from one stalk, but the number, it is found, varies to some considerable extent, four flowers being about the average."—*The Standard*, May 15, 1913.

THE NEW TULIP, SEE PAGE 66.

CARTERS

NAMED DOUBLE

TULIPS

FOR POTS OR BEDS.

The double varieties usually come into flower a few days later than the early single varieties, and we draw special attention to those marked * as being most beautiful in form and colouring, and which we strongly recommend.

The numbers denote the varieties which bloom together, special reference to this being given on page 58.

DOUBLE TULIP—ROSE D'AMOUR.

	Height.	Per 100.	Per doz.
Alba Maxima. —(4) Large pure white	11 in.	\$2.00	\$.30
* Blue Celeste. —(4) Violet blue, most beautiful and showy variety	16 "	7.00	1.00

A NEW RACE OF TULIP.

CARTERS PLURIFLORES TULIP, MONS. S. MOTTET.

This variety is the forerunner of an entirely new race of Tulips which produce several flowers on a stem, and the above photograph gives a very good idea of its floriferous character (but does not convey as we should wish the large size of flower), being a trial of 50 bulbs in our grounds at Raynes Park. The flowers open creamy white, are of a delicate silky texture, and when fully matured develop at edge a pleasing pink tinge which gradually flushes almost the entire flower. We are anticipating a large sale for this striking novelty. Stock limited. We hope to offer many more colours in the near future of this same breed.

Price, per 100, \$30.00; per doz., \$4.00; each, 40c.

CARTERS DARWIN TULIPS.

(See also pages 68, 69.)

The demand for this lovely race of Tulips rapidly increases, and we have made during the past few years exhaustive trials with the object of offering only the varieties which are most brilliant in colouring and perfect in form.

We claim that the varieties offered in this catalogue are the best that can be obtained. The photograph facing page 68 shows the superb effect that can be obtained in a large border. The Darwin Tulips are also suitable for pot work, as when forced gently they are very valuable for decorative purposes.

A splendid idea of the beautiful form of these Tulips will be observed by the photograph overleaf.

A superb mixture from choice named varieties, \$20.00 1,000; \$3.00 100; 40c per doz.

A good mixture embracing the best colours, \$15.00 1,000; \$2.00 100; 30c per doz.

CARTERS DARWIN TULIPS.

	Per 100.	Per doz.		Per 100.	Per doz.
Albert Kellog (Early Dawn), 24 in., tall bold flower; rosy carmine with deep blue and white base	\$4.00	\$.60	Mr. Farncombe Sanders , 28 in., superb colour; very beautiful large flowers of deep rose scarlet, with white centre	\$6.50	\$.85

Lantern , 17 in., silvery lilac and white, perfect shape	3.50	.50	William Pitt , 26 in., a fine deep scarlet with blue and white base	6.00	.80
Leonard da Vinci , 24 in., a large broad erect true Darwin-shaped flower of deep blackish maroon . . .	5.00	.75	Yellow Darwin (Inglescombe Yellow), 18 in., a perfect flower, canary yellow; not a true Darwin, but so near in form as to be classed with them .	8.00	1.00
Madame Krelage , 28 in., deep rose heavily margined blush white; a very pretty and erect tulip	4.00	.60	Yellow Perfection , 27 in., brownish yellow; a distinct tulip, should be in all Darwin collections	12.00	1.75

DARWIN TULIPS

A beautiful display.—Four thousand **Carters Darwin Tulips** in the gardens of H. B. BRANDT Esq.,

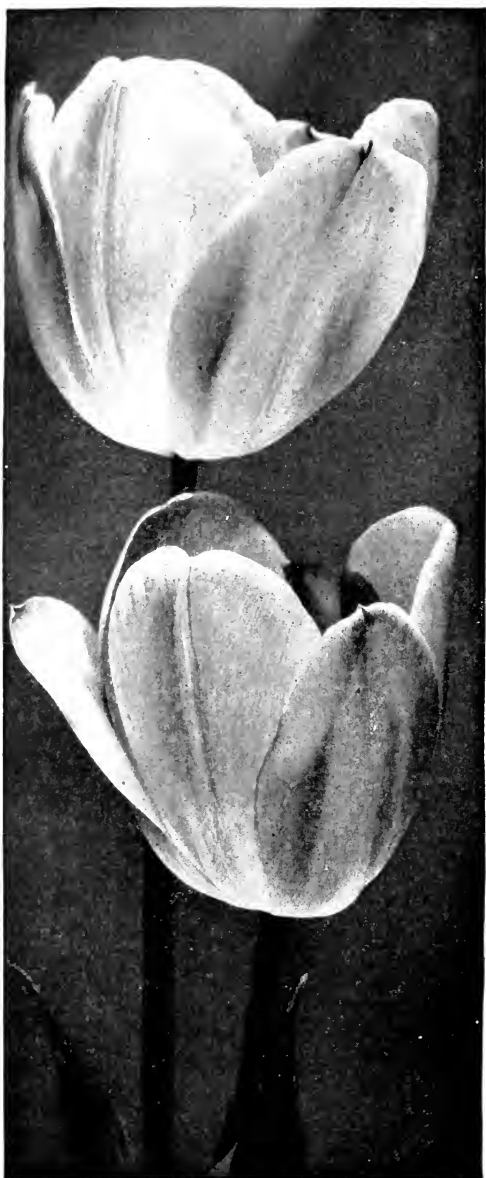

Messrs. CARTER & CO., RAYNES PARK.—DEAR SIR,—The Darwin Tulip Bulbs supplied by your firm (4,000) last autumn have made a grand display this spring both for size of bloom and length and strength of stem. I have never seen anything to equal them. Mrs. Brandt has asked me to write and say how pleased she has been with them, and how greatly they have been admired by her friends.—Yours faithfully.

(Signed) THOS. HERON, *Supt.*

A Superb Mixture from choice named varieties.....per 1,000, \$20.00; per 100, \$3.00; per doz., 40c.
A Good Mixture, embracing the best colours.....per 1,000, \$15.00; per 100, \$2.00; per doz., 30c.

Mixed Varieties of Superb Colours per 1,000, \$12.00	1.50	.25

PARROT TULIPS.

The cultivation of the PARROT TULIP is vastly on the increase. The colours and curious forms of the petals are alike charming. They flower later than the ordinary varieties and the flower does not show its fantastic points until fully developed.

PARROT TULIP PERFECTA.

	Per 100.	Per doz.
Cafe Brun , deep brown and yellow	\$1.75	\$.25
Constantinople , red	1.75	.25
Cramoisie Brillante , deep crimson, black centre (finest of all)	1.75	.25

Carters Seedsmen by Appointment to His Majesty the King — High Holborn London

VEGETABLES FOR WINTER FORCING AND AUTUMN SOWING.

BEANS, Carters Perpetual Dwarf French. A splendid cropper of medium size with remarkable quality, maturing medium early, pt., 65c; pkt., 25c.

" **Carters Maggie New Dwarf French Green Podded.** This remarkable dwarf bean has attracted much favorable attention the past two years. It is a heavy cropper and an excellent forcer. We most strongly recommend this introduction. Limited stock. $\frac{1}{2}$ pt., 65c; pkt., 25c.

" **Carters Sunrise Dwarf French.** Is a most valuable addition to the list of dwarf beans, being a dependable variety for both forcing and outdoor use, a good cropper of splendid habit and remarkably early, stock limited. Pkt., 25c.

" **Carters Holborn Wonder Stringless Dwarf French.** Our Holborn wonder will be found to be free from strings or threads. Is quite distinct and very prolific and highly recommended, qt., 85c; pt., 50c; pkt., 25c.

" **Carters Canadian Glory Stringless Dwarf French.** An extra early dwarf French variety free from strings or threads, compares favorably with Flagelot as used on the continent, qt., 85c; pt., 50c; pkt. 25c.

BEETS, Carters Crimson Ball. A round beet of great value on account of its earliness, high colour and tenderness. In Carters Crimson Ball all defects have been remedied, $\frac{1}{4}$ lb., 75c; 1 oz., 25c; pkt., 10c.

" **Carters Dainty.** A small growing variety of more than ordinary merit, has a long slender root of deep crimson colour, and the finest flavour possible, is of an extremely refined quality, $\frac{1}{4}$ lb. 75c; 1 oz., 25c; pkt., 10c.

" **Carters Crosby Egyptian Selected Stock.** A well-known beet and recognized as one of the best early varieties with excellent colour and flavor, $\frac{1}{4}$ lb., 85c; 1 oz., 25c; pkt., 10c.

CARROTS, Carters Long Forcing. An early handsome long carrot, a splendid forcer of good colour and texture, $\frac{1}{4}$ lb., \$1.50 1 oz., 40c; pkt., 10c.

" **Carters Early Market.** A fine early variety of good colour, quick in growth, a valuable one for private market gardeners alike, $\frac{1}{4}$ lb. \$1.25; 1 oz., 35c; pkt., 10c.

" **Carters Golden Ball.** Very early and especially adapted for forcing and frame work, flavour excellent and melting, $\frac{1}{4}$ lb., \$1.50; 1 oz., 40c; pkt., 10c.

" **Carters Imp Early French Horn.** A perfect type of stump rooted carrot of excellent flavour, $\frac{1}{4}$ lb., \$1.25; 1 oz., 35c; pkt., 10c.

CAULIFLOWER, Carters Forerunner. (The quickest cauliflower ever grown.) A very early variety of dwarf compact habit, with solid handsome pure white heads, a most reliable cropper, 1 oz., \$4.00; pkt., 25c.

" **Carters Defiance Forcing.** This superb variety is without doubt one of the finest forcing varieties ever introduced, produces fine solid heads, 1 oz., \$4.00; pkt., 25c.

CURLED CRESS or PEPPER GRASS. Valuable for salads and garnishing, $\frac{1}{4}$ lb., 50c; 1 oz., 15c; pkt., 10c.

CUCUMBERS, Carters Ideal. A variety of excellent merit, having a splendid colour, form and flavour and is one of the best forcing or frame varieties, pkt., 50c.

" **Carters Model.** One of the handsomest cucumbers grown embodying the fine form and characteristics of "Tender and True," with the habit and constitution of "Telegraph," perfect in outline and a short neck thoroughly dependable, pkt., 50c.

" **Carters Frame.** One of the standard forcing or frame varieties, pkt., 25c.

" **Champion.** An excellent variety of splendid merit, pkt., 25c.

" **Lockies Perfection.** A remarkable productive variety bearing fruits about 15 inches in length, models in shape and of high quality, pkt., 50c.

" **Rockfords Market.** Without doubt one of the most reliable varieties of forcing or frame cucumbers grown today, has good quality and form of medium length, pkt., 35c.

" **Carters Imp Telegraph.** Our highly selected stock is the best obtainable of this popular variety, unquestionably one of the best winter varieties, a great cropper, pkt., 50c.

LETTUCE, Carters Giant White Cos. This variety is self closing and requires no tying, has solid heads, very tender and crisp, one of the best Cos. varieties in cultivation, 1 oz., 65c; pkt., 15c.

" **Paris White Cos.** One of the standard sorts for forcing purposes, having a good solid white heart, tender and good flavour. 1 oz., 25c; pkt., 10c.

" **Carters Harbinger Forcing.** Valuable on account of its extreme earliness, is not a hearting sort but being of very quick growth produces a quantity of very tender leaves so much desired for early salads, 1 oz., 65c; pkt., 15c.

" **May King.** A very tender and grand forcing variety, colour light green and delicately ribbed, 1 oz., 25c; pkt., 10c.

" **Tennisball W. S.** This variety is well known and extensively used, forms a good head very quickly, is crisp and tender, a splendid forcer, 1 oz., 50c; pkt., 10c.

" **Carters Long Stander.** A distinct and valuable variety of good size, is less liable to decay and damage than any other variety owing to its habit of growth, colour pale green of delicious flavour and tenderness, 1 oz., 40c; pkt., 10c.

" **Carters Tom Thumb.** Our reselected stock of one of the good old favourites with compact solid and crisp heads, a great favourite, 1 oz., 35c; pkt., 15c.

MELONS, Carters Blenheim Orange. One of the finest flavoured and most popular scarlet flesh melons in cultivation, has a good constitution, sets freely and is very prolific, pkt., 50c.

" **Carters Barnett Hill Favourite.** The demand for this melon since our introduction of it is confirmation of its superior merits. It is superbly netted, orange yellow in colour, with white flesh and splendid flavour, sets freely and is a perfection variety, pkt., 75c.

" **Hero of Lockinge.** One of the standard varieties of pale flesh colour, has a very delicious flavour and is juicy, pkt., 30c.

" **Invincible Scarlet.** A melon of exquisite flavour, of globular form, finely netted and a beautiful scarlet flesh, pkt., 50c.

" **Royal Sovereign.** This melon produces fruit of a rich golden colour, slightly netted, flesh white and very deep, rind thin, pkt., 50c.

" **Lyon House Perfection.** This is a green flesh variety of excellent qualities, grown very extensively and thoroughly dependable, pkt., 25c.

" **Ingestre Hybrid.** A hybrid of the highest quality, which will become very popular when better known, has white flesh, juicy and tender, an easy setter and very productive, pkt., 25c.

MUSTARD, Carters Finest White. Very popular for salads, 1 oz., 20c; pkt., 10c.

PARSLEY, Carters Perpetual. A splendid variety with handsome curled leaves and very slow to run to seed, a strong grower, 1 oz., 35c; pkt., 15c.

PEAS, Carters Eight Weeks, green round 15 inches. This is the earliest dwarf pea in the world and is amply proved by our trials and the expert reports received from our customers, both as a forcing and early border variety it has become a boon to gardeners, produces very freely, well filled pods of sweet tender and juicy peas, qt., 90c; pt., 50c; pkt., 25c.

" **Carters Forcing** (wrinkled 1 foot). A most valuable pea for early culture. Its stocky growth is rarely more than 1 foot in height. It commends itself highly to all gardeners who are required to produce peas almost the entire year, as it is a grand forcer and producer, which can be relied upon implicitly qt., 65c; pt., 35c; pkt., 20c.

RADISH, Carters Sixteen Days. For quality and forcing it has no equal being of small oval shape, colour bright crimson with white tip, $\frac{1}{4}$ lb., 65c; 1 oz., 20c; pkt., 10c.

RADISH, Carters Extra Early Scarlet. The most rapid growing and perfect shaped scarlet turnip radish, and if sown with Carters lightning white makes a most perfect combination, $\frac{1}{4}$ lb., 65c; 1 oz., 20c; pkt., 10c.

" **Carters Lightning White Round.** A small white marble radish of lightning growth, excellent quality, extremely small topped, the quickest radish ever introduced, sown in on a warm bench it is fit for the table in fourteen days, $\frac{1}{4}$ lb., 65c; 1 oz., 20c; pkt., 10c.

" **Carters Delicatesse.** A very attractive radish crisp flesh and nutty flavour, and a good forcer, $\frac{1}{4}$ lb., 65c; 1 oz., 20c; pkt., 10c.

" **Carters Crimson Forcing Olive.** Splendid rich colour and a great grower has a very small top, flavour sweet and delicate, $\frac{1}{4}$ lb., 65c; 1 oz., 20c; pkt., 10c.

Carters Address for Correspondence, BOSTON, TORONTO and RAYNES PARK, LONDON, S.W.

VEGETABLES FOR WINTER FORCING AND AUTUMN SOWING.

(Continued.)

SPINACH (for autumn sowing) "The Carter Spinach." This variety is of far greater duration than any other spinach, the substance of the leaves is firm and solid and the whole plant has a very rich colour, $\frac{1}{4}$ lb., 50c.; 1 oz., 15c.; pkt., 10.

" " " " **Long Standing.** One of the standard varieties used in general, lb., 60c.; $\frac{1}{4}$ lb., 25c.; 1 oz., 10c

" " " " **Prickly or Winter.** A very hardy variety for winter or spring use, lb., 60c.; $\frac{1}{4}$ lb., 25c.; 1 oz., 10c

" " " " **Round Thick Leaf.** An improvement on the old round variety, lb., 60c.; $\frac{1}{4}$ lb., 25c.; 1 oz., 10c.

" " " " **Carters Market Favourite.** A variety of great substance and colour, lb., 60c.; $\frac{1}{4}$ lb., 25c.; 1 oz., 10c.

TURNIPS, Carters Early Long Forcing White. Splendid for forcing or outdoors, flesh white, flavour delicate, $\frac{1}{4}$ lb., 45c.; 1 oz., 20c.; pkt., 10c.

" **Carters Little Marvel.** The quickest white globe turnip in cultivation, flesh white, crisp and solid, $\frac{1}{4}$ lb., 45c.; 1 oz., 20c.; pkt., 10c

TURNIPS, White Milan. Is as quick as a radish, clean in growth, and fine flavour, strongly recommended, $\frac{1}{4}$ lb., 45c.; 1 oz., 20c.; pkt., 10c.

TOMATO, Carters Sunrise. Chief points in Carters Sunrise are its earliness, its cropping properties, its healthy and robust constitution, its prolific character, its solid but delicate flesh, its evenness of size, its bright scarlet colour, and its equal value for indoor and outdoor cultivation. It without doubt surpasses any other known variety, pkt., 75c

" **Carters Duke of York.** A leading feature of this variety is that it ripens its fruit with the most pronounced uniformity. Its clusters average six to ten evenly formed fruits almost globular in shape. Invaluable as an exhibition variety or for private growers and market gardeners, pkt., 75c.

" **Carters Golden Queen.** The largest yellow tomato with an excellent flavour, is very attractive when used with the red sorts, 1 oz., 60c.; pkt., 15c.

" **Comet.** Is now a very popular forcing variety of good quality and habits, fruit even and of good colour, 1 oz., \$1.50; pkt., 25c.

" **Sterling Castle.** One of the standard forcing varieties and fairly productive, 1 oz., \$1.00; pkt., 15c.

CARTERS SPECIAL MUSHROOM SPAWN.

SPECIAL "MILLTRACK" BRAND.

Mushroom Spawn. Carters special spawn is the purest that can be produced. It is germinated and developed under our special scientific methods and the result of this is a very fine strain of uniform size and excellent quality. We import frequently to insure fresh stock. Price, 100 bricks, \$20.00; 12 bricks, \$2.50; 1 brick, 25c.

Special Prices for Larger Quantities.

"Having used your Mushroom Spawn the last two years I cannot speak too highly of it. On several occasions I have picked under the month from the time of spawning—and of first-rate quality."—F. WEST, Head Gardener to The Right Hon. Earl Curzon of Kedleston.

CARTERS TESTED GRASS SEEDS.

Are today being used by every Championship and Prominent Golf and Country Club in the World.

GRASS SEEDS PRESCRIBED FOR ALL SOILS AND PURPOSES.

For Lawns, Shaded Lawns, Tennis Courts, Golf Courses, Bowling Greens, Cricket Grounds, Football, Baseball, and Polo Fields.

PRICES.

Carters Finest Mixtures of Grass Seed for Putting Greens or Tennis Courts.

(Without Rye Grass).

Mixtures of the very fine bladed species, which, if sown according to our recommendations, should produce a close, thick turf on all good soils, and are especially suitable for all games in which the ball is required to run true.

Lots under 10 bushels, per bushel of 25 lbs., \$8.75 or \$35.00 per 100 lbs.

Lots of 10-20 bushels, per bushel of 25 lbs., 8.50 or 34.00 per 100 lbs.

Lots of 20-60 bushels, per bushel of 25 lbs., 8.25 or 33.00 per 100 lbs.

Lots of 60-1000 bushels, per bushel of 25 lbs., 8.00 or 32.00 per 100 lbs.

When ordering state whether the soil is light, medium or heavy as a mixture is sent accordingly.

Carters Fine Mixture of Grass Seed for Fair Greens, Tees, Lawns, Shaded Grounds, Football, Baseball, Polo Fields, Etc.

(without Rye Grass)

Mixtures not so fine as the above, but better adapted for the purposes where a turf of the finest texture is not required, producing a strong hard-wearing turf.

Lots under 10 bushels, per bushel of 25 lbs., \$7.75 or \$31.00 per 100 lbs.

Lots of 10-20 bushels, per bushel of 25 lbs., 7.50 or 30.00 per 100 lbs.

Lots of 20-60 bushels, per bushel of 25 lbs., 7.25 or 29.00 per 100 lbs.

Lots of 60-1000 bushels, per bushel of 25 lbs., 7.00 or 28.00 per 100 lbs.

When ordering state whether the soil is light, medium or heavy as a mixture is sent accordingly.

HINTS WHEN ORDERING GRASS SEEDS.

We would respectfully ask our customers when ordering grass seeds to give as much information as possible on the following questions; this will assist us in supplying the most suitable mixture for the particular purpose for which the seed is required.

What is the nature of the soil: heavy, medium or light? Purpose for which the lawn is required.

Is the seed required for a new lawn? If so, send a sample of soil.

Is the seed required for renovating an old lawn? If so, send a sample of existing turf.

Is the ground in good heart?

Do you intend to manure the ground? If so, can you procure any well-rotted farm or stable manure?

Is the ground well drained? Is water laid on? Quality of seed required.

SOWING GRASS SEEDS.

Quantity of Seed Required.

One bushel of seeds weigh 25 pounds. A green should be divided into squares of 4 yards each way, or 16 square yards, and the seed required for that area should not be less than 2 pounds, which is at the rate of 2 bushels, or 50 pounds, to an area of 20 yards each way, or 400 square yards.

For renovating purposes, about one-half the above quantity would be required, according to the state of the existing turf, for an area of 20 yards square, or 400 square yards.

Lawns or fair green should be sown at the rate of from 6 to 12 bushels per acre.

Carters Seedsmen by Appointment to His Majesty the King—High Holborn, London.

CARTERS COMPLETE GRASS MANURES.

For Use in Spring and Autumn.

Carters Complete Grass Manure (No. 1)

as its name implies, is a complete grass food, that is to say, it contains all that is necessary for the growth of fine grasses, but it does not force or burn them.

Directions For Use.

When making a new lawn or green, spread the manure evenly over the surface at the rate of two ounces per square yard, and rake it in. The seed can be sown immediately afterwards, but it is better to allow a few days to elapse between the two operations.

For renovating a lawn, spread the manure evenly over the ground at the rate of two ounces per square yard, and rake it in whilst preparing the surface for the seed.

When used to improve existing turf sow at the rate of two ounces per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils.

Prices: \$80.00 per ton (20 bags), \$42.50 per half ton, \$4.50 per bag (100 pounds). Also put up in small quantities.

Carters Anticlover Manure (No. 1)

is also a complete grass food; it is slightly quicker in action than the above, and its constituents are so balanced that it effectively checks the growth of clover, and for this reason it is very valuable for dressing putting greens, tennis courts, croquet lawns, and other lawns in which the growth of clover is objectionable.

Directions For Use.

Sow at the rate of two ounces per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils.

Prices: \$85.00 per ton (20 bags), \$45.00 per half ton, \$5.00 per bag (100 pounds). Also put up in small quantities.

Carters General Purposes Manure (No. 3)

for rejuvenating large areas of turf for field games, where a strong, tough, hard-wearing turf is required, rather than one of the finest texture. Very useful for dressing golf courses "through the green," football, hockey cricket fields, etc., etc.

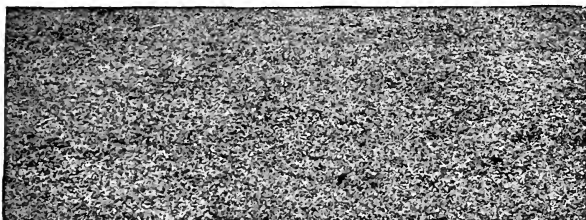

Directions For Use.

Mix the manure with two or three times its own bulk of sifted soil or sand, so as to facilitate its even distribution, and apply it broadcast at the rate of 500 lbs. per acre, either in early autumn or spring, and bush-harrow it in.

Prices: \$60.00 per ton (20 bags, \$32.50) per half ton, \$3.50 per bag (100 pounds). Also put up in small quantities.

Above Prices all f. o. b. Boston.

CARTERS WORM ERADICATING FERTILIZER.

The result of using CARTERS WORM KILLER. Turf clean, firm, and healthy; an occasional light rolling alone necessary to keep it in perfect playing condition.

Peter Lees, the well-known Greenkeeper to the Mid-Surrey Golf Club, watering in CARTERS WORM KILLER.

\$65.00 per ton (20 bags), **\$35.00** per half ton (10 bags), **\$4.00** per bag (100 lbs.).

Plenty of water should be used in washing this powder into the turf, and a day selected when the worms are working near the surface. For full directions see our Practical Greenkeeper.

Above prices all f. o. b. Boston.

The ingredients of Carters Worm Killer are so carefully balanced that not only does it destroy the worms, but its manurial properties immediately improve the growth and texture of the turf.

A complete and illustrated List of all Garden Tools, and Sundries, etc, can be had on application.

TERMS OF BUSINESS.

CONDITIONS OF GUARANTEE OF QUALITY

We guarantee our Seeds and Bulbs according to the quality purchased to be of the highest average standard of vitality of the season, and it is open to the purchaser to confirm this by submitting the samples to professional analysis at his own expense. We cannot, however, be in any way responsible for the produce of Seeds sold under this guarantee, or for errors of description; and it must therefore be clearly understood that our responsibility ceases upon the final acceptance of the goods, and while we exercise the greatest care to have all seeds, bulbs, plants, and shrubs, true to name, we can give no warranty, express or implied, as to description, quality, productiveness, or any other matter of seeds, bulbs, and plants, we send out, and will not be held responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once and money will be refunded.

PRICES AND TERMS

The prices quoted in this catalogue are those prevailing at this date and are subject to change without notice. All terms of payment are net cash.

FREE DELIVERY OF GOODS

When orders are accompanied by cash we deliver free to any Post Office, Railroad, Express Office, or Freight Station at our expense, all Vegetable and Flower Seed orders at the packet, ounce, quarter pound, half pound, and pound prices, also bulbs at the single and dozen rates, except where otherwise noted. Purchaser must pay transit on pint, quart, peck, and bushel lots, also plants and bulbs unless otherwise noted, tools, fertilizers, and insecticides, etc. All f. o. b. Boston. Note, we will upon inquiry advise customers of the approximate cost of mailing or express charges of any special items.

ORDERS

Purchasers should order early to ensure a prompt, seasonable shipment of their goods. Do not wait until season is too far advanced; send your order in now for future shipment. All orders should be written separately from general letters or letters of inquiry. Please write the name and address in full, also be very particular to give the number of street or Post Office Box when goods are to be sent by mail, and when ordering goods forwarded by express or freight always state clearly the express or freight station.

NEW CUSTOMERS

In opening an account with us it is necessary for us to receive cash with the order, or we must be furnished with satisfactory references. Those pertaining to Boston or Toronto preferred, thus saving time.

REMIT- TANCES

Post Office Money Orders, Bank Drafts, Registered Letters, or Express Money Orders are acceptable and we must disclaim all responsibility when remittances are made in any other way. All cheques, etc., should be drawn in favour of "Carters Tested Seeds, Inc."

NOTICE TO PURCHASERS

All letters are opened under directions of one of our principals, and the orders are given out under personal supervision. Bulb and plant orders are sometimes delayed by severe cold or hot weather and they at all times take longer to execute than seed orders in consequence of the care in counting and packing. Customers should always retain a true copy of the order sent to us.

It is also our earnest desire that all the requirements and directions of customers be scrupulously attended to by our assistants, *and we practice the utmost personal supervision to see that they are carried out.* We would therefore respectfully request that we be informed if at any time there is cause for dissatisfaction, that we may have it rectified at the earliest possible moment.

ACCIDENTS IN TRANSIT

Glass, Pottery, and other goods liable to breakage are sent out securely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and compensation claimed from the express or freight companies which delivered the article. Never sign for goods damaged in transit.

AS TO COR- RESPOND- ENCE

Any proper letter of inquiry will receive our careful attention and be answered promptly, but our friends will favour us by stating all questions clearly and briefly and not using the order sheet.

CHANGE OF ADDRESS

Please notify us of any change of Permanent Address, in order that we may be able to forward out Catalogues with regularity. The favour of your kind recommendation of our House to those of your friends requiring Seeds for the Garden or Farm, or Plants and Bulbs for the Garden or Conservatory, is respectfully solicited. We shall be pleased, at all times, to forward our Catalogues to any address we may be favoured with.
